NOTICES

GOVERNMENT MOTIONS

31. *Budget motion debated April 24, 25, 26 and 30, 1990.*
-

PRIVATE MEMBERS' MOTIONS

2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*
23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of

life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*

24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple “E” Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*
37. *Mr McGuigan*—Resolution—That in the opinion of this House, the Standing Committee on Social Development should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario and in particular, in conjunction with vaccine-injuries in Ontario, the Committee should consider and recommend:
 - an effective means of information about the benefits and risks of immunization and about known contra-indications;
 - an effective method of parental instruction about how to deal with reactions, should they occur;
 - an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations;
 - a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory. *December 20, 1989.*

39. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing the need to protect and enhance the environment; the Government of Ontario should not offer any grants or loans for private sector projects not utilizing the best available environmental technology, and further, grant and loan criteria—specifically the Premier's Technology fund—should be amended by the Government of Ontario to give priority to projects developing environmental technology. *March 19, 1990.*
40. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that everyone has the right to life, liberty and security of the person, and the right not to be deprived thereof except in accordance with the principles of fundamental justice; the Government of Ontario should petition the Government of Canada to add the fundamental right of enjoyment of property to the Canadian Charter of Rights. *March 19, 1990.*
41. *Mrs Marland*—Resolution—That, in the opinion of this House, recognizing that the Province of Ontario has imposed a special tax of \$5 (plus a 40-cent retail sales tax) on every new tire sold in Ontario, and recognizing that used tires take up much needed space in existing landfill sites, the government should establish used tire depots in various regions of Ontario where used tires would be collected and shredded for recycling, and further that the cost of developing and operating these sites be paid for from the revenues collected from the above-noted taxes. *March 19, 1990.*
42. *Mr Mackenzie*—Resolution—That, in the opinion of this House, recognizing the current Regulations covering hygiene on construction sites are outdated and in need of amendment; that requirements for the provision of toilet and washroom facilities should be fully reflected in the Regulations of the Occupational Health and Safety Act (Sections 89/90); and that the requirements should be both practical and workable, result in the improvement of jobsite working conditions, and hence improve productivity on construction jobsites in the province. 1. The owner/constructor/project manager shall provide toilet and washing facilities on all construction sites in accordance with the following: a) where there are 15 or more workers on a project for a minimum period of one month the facilities shall include one flush (non-chemical) toilet and one urinal and one basin; and b) for each additional 30 workers or part thereof, an additional flush toilet, urinal and wash basin shall be added to facilities. 2. The costs borne by the owner/constructor/project manager in meeting the responsibilities of sections 89 & 90 cannot be transferred to other subcontractors/forces on the project. 3. The owner/constructor/project manager shall have the option of providing the necessary facilities via access to facilities existing or adjacent to the worksite; via temporary fixed facilities constructed on the site; or via mobile units; conditional on site services being available. 4. On high-rise projects, the necessary facilities shall be made available on every fourth floor. 5. The toilet facilities provided shall be equipped as follows: a) within easy access of work sites, b) built so that the occupant is shielded from view, and protected from weather and falling objects, c) provided with natural or artificial lighting, d) provided with sufficient toilet paper and disinfectant, e) kept in a clean and sanitary condition, f) supplied with toilet seats and covers, g) heated to a minimum of 18 degrees C, h) suitably ventilated. 6. Basins provided shall have as a minimum standard a) hot and

cold running water. b) soap or hand cleaner. c) hand towels. 90 1.a). Where WHMIS-class products are present on the jobsite, washing facilities meeting the requirements of the applicable material safety data sheets shall be provided. b). If showers (with the exception of safety showers) are required, they shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) paper towels or individual hand towels. *March 21, 1990.*

45. *Mr Rae (York South)*—Resolution—That, in the opinion of this House, recognizing that unequal opportunity for employment and promotion exists in the province of Ontario for women, members of visible minority groups, native persons and people with disabilities, and recognizing that voluntary efforts to increase the representation of employable persons with such characteristics by employers have profoundly failed in both the private and public sectors of employment in Ontario, and recognizing that the only remedy to such an inequitable situation in Ontario is the introduction of a legislated mandatory employment equity program with enforceable goals and timetables, in both the private and public sectors, and with an emphasis on removing existing barriers to employment and promotion through the provision by government of such important and necessary services as job training, and child care, all parties in Ontario should join together to secure the enactment in the current legislative session of such employment equity legislation for Ontario. *March 22, 1990.*
50. *Mr Cooke (Windsor-Riverside)*—Resolution—That, in the opinion of this House, recognizing that Canada Post, with the sanction of the federal government of Canada, has undertaken to close 5,221 rural post offices by 1996 and has already closed 175 post offices in spite of massive opposition from individual Canadians and organizations such as the Canadian Municipalities' Association and several provincial governments, and recognizing that closing or privatization of the rural post office undermines over eight decades of uninterrupted service to thousands of Ontarians who live in rural areas, the Government of Ontario should express its dissatisfaction to the federal government of Canada and Canada Post for its present action and strongly urges Canada Post to cease this demise of a system that has well served its rural clientele; and, further that Canada Post return to providing and encouraging the already proven system of existing post offices that will continue to link rural customers with a reliable and cost effective communications system. *April 19, 1990.*
51. *Mr Daigeler*—Resolution—That, in the opinion of this House, recognizing that the Canadian Criminal Justice Association in their 1989 paper on safer Communities has called on the provinces to play a major role in the promotion of crime prevention through social development, the Government of Ontario should accept crime prevention as a significant and integral part of public policy, especially in education, housing, social services and health, and continue to create a social environment that nurtures respect for the law, peace and security of its citizens, but also addresses the root causes of crime. *May 3, 1990.*
52. *Mr Miclash*—Resolution—That, in the opinion of this House, recognizing, that fully accessible, quality health care for every Ontarian is a priority of

this Government and that Northern Ontario residents often have to travel outside their communities to receive specialized health care services and that travel costs in Northern Ontario are higher on average than in other areas of the province and that some situations, regardless of age, require the assistance of a travel companion, the Government of Ontario should reduce the distance criteria under the Northern Travel Grant Program from 250 km to 200 km and that any individual requiring the assistance of a travel companion regardless of their age be eligible to receive a grant to cover their companion's costs. *May 16, 1990.*

53. *Mr Morin-Strom—Resolution—*That, in the opinion of this House, recognizing that municipal solid waste should be reduced as much as possible so as to eliminate the need for more landfill sites, and recognizing that each region of the province should solve its own waste problems, the Government of Ontario should adopt a policy that no municipal or other garbage from southern Ontario should be shipped to any location in northern Ontario for treatment or disposal. *May 17, 1990.*

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

(Precedence in accordance with the Standing Order 94(d).)

Ballot Item Number 51. *To be debated May 31, 1990.*

Second Reading Bill 166, An Act to amend the Highway Traffic Act. *Mrs Cunningham.*

Ballot Item Number 52. *To be debated May 31, 1990.*

Mr Miclash—Resolution—That, in the opinion of this House, recognizing, that fully accessible, quality health care for every Ontarian is a priority of this Government and that Northern Ontario residents often have to travel outside their communities to receive specialized health care services and that travel costs in Northern Ontario are higher on average than in other areas of the province and that some situations, regardless of age, require the assistance of a travel companion, the Government of Ontario should reduce the distance criteria under the Northern Travel Grant Program from 250 km to 200 km and that any individual requiring the assistance of a travel companion regardless of their age be eligible to receive a grant to cover their companion's costs.

Ballot Item Number 53. *To be debated June 7, 1990.*

Mr Morin-Strom—Resolution—That, in the opinion of this House, recognizing that municipal solid waste should be reduced as much as possible so as to eliminate the need for more landfill sites, and recognizing that each region of the province should solve its own waste problems, the Government of Ontario should adopt a policy that no municipal or other garbage from southern Ontario should be shipped to any location in northern Ontario for treatment or disposal.

Ballot Item Number 54. *To be debated June 7, 1990.*

Mr Daigeler—Resolution—That, in the opinion of this House, recognizing that the Canadian Criminal Justice Association in their 1989 paper on safer Communities has called on the provinces to play a major role in the promotion of crime prevention through social development, the Government of Ontario should accept crime prevention as a significant and integral part of public policy, especially in education, housing, social services and health, and continue to create a social environment that nurtures respect for the law, peace and security of its citizens, but also addresses the root causes of crime.

Ballot Item Number 55. *To be debated June 14, 1990.*

Second Reading Bill 172, The Employment Equity Act, 1990. *Mr Rae (York South).*

Ballot Item Number 56. *To be debated June 14, 1990.*

Second Reading Bill 173, An Act to amend the Mental Health Act. *Mr Calahan.*

PRIVATE MEMBERS' MOTIONS

2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*
23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of

life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*

24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple “E” Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*
37. *Mr McGuigan*—Resolution—That in the opinion of this House, the Standing Committee on Social Development should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario and in particular, in conjunction with vaccine-injuries in Ontario, the Committee should consider and recommend:
 - an effective means of information about the benefits and risks of immunization and about known contra-indications;
 - an effective method of parental instruction about how to deal with reactions, should they occur;
 - an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations;
 - a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory. *December 20, 1989.*

39. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing the need to protect and enhance the environment; the Government of Ontario should not offer any grants or loans for private sector projects not utilizing the best available environmental technology, and further, grant and loan criteria—specifically the Premier's Technology fund—should be amended by the Government of Ontario to give priority to projects developing environmental technology. *March 19, 1990.*
40. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that everyone has the right to life, liberty and security of the person, and the right not to be deprived thereof except in accordance with the principles of fundamental justice; the Government of Ontario should petition the Government of Canada to add the fundamental right of enjoyment of property to the Canadian Charter of Rights. *March 19, 1990.*
41. *Mrs Marland*—Resolution—That, in the opinion of this House, recognizing that the Province of Ontario has imposed a special tax of \$5 (plus a 40-cent retail sales tax) on every new tire sold in Ontario, and recognizing that used tires take up much needed space in existing landfill sites, the government should establish used tire depots in various regions of Ontario where used tires would be collected and shredded for recycling, and further that the cost of developing and operating these sites be paid for from the revenues collected from the above-noted taxes. *March 19, 1990.*
42. *Mr Mackenzie*—Resolution—That, in the opinion of this House, recognizing the current Regulations covering hygiene on construction sites are outdated and in need of amendment; that requirements for the provision of toilet and washroom facilities should be fully reflected in the Regulations of the Occupational Health and Safety Act (Sections 89/90); and that the requirements should be both practical and workable, result in the improvement of jobsite working conditions, and hence improve productivity on construction jobsites in the province. 1. The owner/constructor/project manager shall provide toilet and washing facilities on all construction sites in accordance with the following: a) where there are 15 or more workers on a project for a minimum period of one month the facilities shall include one flush (non-chemical) toilet and one urinal and one basin; and b) for each additional 30 workers or part thereof, an additional flush toilet, urinal and wash basin shall be added to facilities. 2. The costs borne by the owner/constructor/project manager in meeting the responsibilities of sections 89 & 90 cannot be transferred to other subcontractors/forces on the project. 3. The owner/constructor/project manager shall have the option of providing the necessary facilities via access to facilities existing or adjacent to the worksite; via temporary fixed facilities constructed on the site; or via mobile units; conditional on site services being available. 4. On high-rise projects, the necessary facilities shall be made available on every fourth floor. 5. The toilet facilities provided shall be equipped as follows: a) within easy access of work sites, b) built so that the occupant is shielded from view, and protected from weather and falling objects. c) provided with natural or artificial lighting. d) provided with sufficient toilet paper and disinfectant. e) kept in a clean and sanitary condition. f) supplied with toilet seats and covers. g) heated to a minimum of 18 degrees C. h) suitably ventilated. 6. Basins provided shall have as a minimum standard a) hot and

cold running water. b) soap or hand cleaner. c) hand towels. 90 1.a). Where WHMIS-class products are present on the jobsite, washing facilities meeting the requirements of the applicable material safety data sheets shall be provided. b). If showers (with the exception of safety showers) are required, they shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) paper towels or individual hand towels. *March 21, 1990.*

45. *Mr Rae (York South)*—Resolution—That, in the opinion of this House, recognizing that unequal opportunity for employment and promotion exists in the province of Ontario for women, members of visible minority groups, native persons and people with disabilities, and recognizing that voluntary efforts to increase the representation of employable persons with such characteristics by employers have profoundly failed in both the private and public sectors of employment in Ontario, and recognizing that the only remedy to such an inequitable situation in Ontario is the introduction of a legislated mandatory employment equity program with enforceable goals and timetables, in both the private and public sectors, and with an emphasis on removing existing barriers to employment and promotion through the provision by government of such important and necessary services as job training, and child care, all parties in Ontario should join together to secure the enactment in the current legislative session of such employment equity legislation for Ontario. *March 22, 1990.*
50. *Mr Cooke (Windsor-Riverside)*—Resolution—That, in the opinion of this House, recognizing that Canada Post, with the sanction of the federal government of Canada, has undertaken to close 5,221 rural post offices by 1996 and has already closed 175 post offices in spite of massive opposition from individual Canadians and organizations such as the Canadian Municipalities' Association and several provincial governments, and recognizing that closing or privatization of the rural post office undermines over eight decades of uninterrupted service to thousands of Ontarians who live in rural areas, the Government of Ontario should express its dissatisfaction to the federal government of Canada and Canada Post for its present action and strongly urges Canada Post to cease this demise of a system that has well served its rural clientel; and, further that Canada Post return to providing and encouraging the already proven system of existing post offices that will continue to link rural customers with a reliable and cost effective communications system. *April 19, 1990.*
51. *Mr Daigeler*—Resolution—That, in the opinion of this House, recognizing that the Canadian Criminal Justice Association in their 1989 paper on safer Communities has called on the provinces to play a major role in the promotion of crime prevention through social development, the Government of Ontario should accept crime prevention as a significant and integral part of public policy, especially in education, housing, social services and health, and continue to create a social environment that nurtures respect for the law, peace and security of its citizens, but also addresses the root causes of crime. *May 3, 1990.*
52. *Mr Miclash*—Resolution—That, in the opinion of this House, recognizing, that fully accessible, quality health care for every Ontarian is a priority of

this Government and that Northern Ontario residents often have to travel outside their communities to receive specialized health care services and that travel costs in Northern Ontario are higher on average than in other areas of the province and that some situations, regardless of age, require the assistance of a travel companion, the Government of Ontario should reduce the distance criteria under the Northern Travel Grant Program from 250 km to 200 km and that any individual requiring the assistance of a travel companion regardless of their age be eligible to receive a grant to cover their companion's costs. *May 16, 1990.*

53. *Mr Morin-Strom—Resolution—That, in the opinion of this House, recognizing that municipal solid waste should be reduced as much as possible so as to eliminate the need for more landfill sites, and recognizing that each region of the province should solve its own waste problems, the Government of Ontario should adopt a policy that no municipal or other garbage from southern Ontario should be shipped to any location in northern Ontario for treatment or disposal. May 17, 1990.*

GOVERNMENT MOTIONS

31. *Budget motion debated April 24, 25, 26 and 30, 1990.*
-

PRIVATE MEMBERS' MOTIONS

2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*
23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of

life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*

24. *Mr Eves—Resolution—*That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
28. *Mr Cousens—Resolution—*That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
35. *Mr Runciman—Resolution—*That, in the opinion of this House, a Canadian-style Triple "E" Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*
37. *Mr McGuigan—Resolution—*That in the opinion of this House, the Standing Committee on Social Development should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario and in particular, in conjunction with vaccine-injuries in Ontario, the Committee should consider and recommend:
 - an effective means of information about the benefits and risks of immunization and about known contra-indications;
 - an effective method of parental instruction about how to deal with reactions, should they occur;
 - an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations;
 - a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory. *December 20, 1989.*

39. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing the need to protect and enhance the environment; the Government of Ontario should not offer any grants or loans for private sector projects not utilizing the best available environmental technology, and further, grant and loan criteria—specifically the Premier's Technology fund—should be amended by the Government of Ontario to give priority to projects developing environmental technology. *March 19, 1990.*
40. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that everyone has the right to life, liberty and security of the person, and the right not to be deprived thereof except in accordance with the principles of fundamental justice; the Government of Ontario should petition the Government of Canada to add the fundamental right of enjoyment of property to the Canadian Charter of Rights. *March 19, 1990.*
41. *Mrs Marland*—Resolution—That, in the opinion of this House, recognizing that the Province of Ontario has imposed a special tax of \$5 (plus a 40-cent retail sales tax) on every new tire sold in Ontario, and recognizing that used tires take up much needed space in existing landfill sites, the government should establish used tire depots in various regions of Ontario where used tires would be collected and shredded for recycling, and further that the cost of developing and operating these sites be paid for from the revenues collected from the above-noted taxes. *March 19, 1990.*
42. *Mr Mackenzie*—Resolution—That, in the opinion of this House, recognizing the current Regulations covering hygiene on construction sites are outdated and in need of amendment; that requirements for the provision of toilet and washroom facilities should be fully reflected in the Regulations of the Occupational Health and Safety Act (Sections 89/90); and that the requirements should be both practical and workable, result in the improvement of jobsite working conditions, and hence improve productivity on construction jobsites in the province. 1. The owner/constructor/project manager shall provide toilet and washing facilities on all construction sites in accordance with the following: a) where there are 15 or more workers on a project for a minimum period of one month the facilities shall include one flush (non-chemical) toilet and one urinal and one basin; and b) for each additional 30 workers or part thereof, an additional flush toilet, urinal and wash basin shall be added to facilities. 2. The costs borne by the owner/constructor/project manager in meeting the responsibilities of sections 89 & 90 cannot be transferred to other subcontractors/forces on the project. 3. The owner/constructor/project manager shall have the option of providing the necessary facilities via access to facilities existing or adjacent to the worksite; via temporary fixed facilities constructed on the site; or via mobile units; conditional on site services being available. 4. On high-rise projects, the necessary facilities shall be made available on every fourth floor. 5. The toilet facilities provided shall be equipped as follows: a) within easy access of work sites, b) built so that the occupant is shielded from view, and protected from weather and falling objects. c) provided with natural or artificial lighting. d) provided with sufficient toilet paper and disinfectant. e) kept in a clean and sanitary condition. f) supplied with toilet seats and covers. g) heated to a minimum of 18 degrees C. h) suitably ventilated. 6. Basins provided shall have as a minimum standard a) hot and

cold running water. b) soap or hand cleaner. c) hand towels. 90 1.a). Where WHMIS-class products are present on the jobsite, washing facilities meeting the requirements of the applicable material safety data sheets shall be provided. b). If showers (with the exception of safety showers) are required, they shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) paper towels or individual hand towels. *March 21, 1990.*

45. *Mr Rae (York South)*—Resolution—That, in the opinion of this House, recognizing that unequal opportunity for employment and promotion exists in the province of Ontario for women, members of visible minority groups, native persons and people with disabilities, and recognizing that voluntary efforts to increase the representation of employable persons with such characteristics by employers have profoundly failed in both the private and public sectors of employment in Ontario, and recognizing that the only remedy to such an inequitable situation in Ontario is the introduction of a legislated mandatory employment equity program with enforceable goals and timetables, in both the private and public sectors, and with an emphasis on removing existing barriers to employment and promotion through the provision by government of such important and necessary services as job training, and child care, all parties in Ontario should join together to secure the enactment in the current legislative session of such employment equity legislation for Ontario. *March 22, 1990.*
50. *Mr Cooke (Windsor-Riverside)*—Resolution—That, in the opinion of this House, recognizing that Canada Post, with the sanction of the federal government of Canada, has undertaken to close 5,221 rural post offices by 1996 and has already closed 175 post offices in spite of massive opposition from individual Canadians and organizations such as the Canadian Municipalities' Association and several provincial governments, and recognizing that closing or privatization of the rural post office undermines over eight decades of uninterrupted service to thousands of Ontarians who live in rural areas, the Government of Ontario should express its dissatisfaction to the federal government of Canada and Canada Post for its present action and strongly urges Canada Post to cease this demise of a system that has well served its rural clientel; and, further that Canada Post return to providing and encouraging the already proven system of existing post offices that will continue to link rural customers with a reliable and cost effective communications system. *April 19, 1990.*
51. *Mr Daigeler*—Resolution—That, in the opinion of this House, recognizing that the Canadian Criminal Justice Association in their 1989 paper on safer Communities has called on the provinces to play a major role in the promotion of crime prevention through social development, the Government of Ontario should accept crime prevention as a significant and integral part of public policy, especially in education, housing, social services and health, and continue to create a social environment that nurtures respect for the law, peace and security of its citizens, but also addresses the root causes of crime. *May 3, 1990.*
52. *Debated May 31, 1990.*

53. *Mr Morin-Strom*—Resolution—That, in the opinion of this House, recognizing that municipal solid waste should be reduced as much as possible so as to eliminate the need for more landfill sites, and recognizing that each region of the province should solve its own waste problems, the Government of Ontario should adopt a policy that no municipal or other garbage from southern Ontario should be shipped to any location in northern Ontario for treatment or disposal. *May 17, 1990.*

Ballot Item Numbers 51 and 52. *Debated May 31, 1990.*

Ballot Item Number 53. *To be debated June 7, 1990.*

Mr Morin-Strom—Resolution—That, in the opinion of this House, recognizing that municipal solid waste should be reduced as much as possible so as to eliminate the need for more landfill sites, and recognizing that each region of the province should solve its own waste problems, the Government of Ontario should adopt a policy that no municipal or other garbage from southern Ontario should be shipped to any location in northern Ontario for treatment or disposal.

Ballot Item Number 54. *To be debated June 7, 1990.*

Mr Daigeler—Resolution—That, in the opinion of this House, recognizing that the Canadian Criminal Justice Association in their 1989 paper on safer Communities has called on the provinces to play a major role in the promotion of crime prevention through social development, the Government of Ontario should accept crime prevention as a significant and integral part of public policy, especially in education, housing, social services and health, and continue to create a social environment that nurtures respect for the law, peace and security of its citizens, but also addresses the root causes of crime.

NOTICES

GOVERNMENT MOTIONS

31. *Budget motion debated April 24, 25, 26 and 30, 1990.*
-

PRIVATE MEMBERS' MOTIONS

2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*
23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of

life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*

24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple “E” Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*
37. *Mr McGuigan*—Resolution—That in the opinion of this House, the Standing Committee on Social Development should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario and in particular, in conjunction with vaccine-injuries in Ontario, the Committee should consider and recommend:
 - an effective means of information about the benefits and risks of immunization and about known contra-indications;
 - an effective method of parental instruction about how to deal with reactions, should they occur;
 - an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations;
 - a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory. *December 20, 1989.*

39. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing the need to protect and enhance the environment; the Government of Ontario should not offer any grants or loans for private sector projects not utilizing the best available environmental technology, and further, grant and loan criteria—specifically the Premier's Technology fund—should be amended by the Government of Ontario to give priority to projects developing environmental technology. *March 19, 1990.*
40. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that everyone has the right to life, liberty and security of the person, and the right not to be deprived thereof except in accordance with the principles of fundamental justice; the Government of Ontario should petition the Government of Canada to add the fundamental right of enjoyment of property to the Canadian Charter of Rights. *March 19, 1990.*
41. *Mrs Marland*—Resolution—That, in the opinion of this House, recognizing that the Province of Ontario has imposed a special tax of \$5 (plus a 40-cent retail sales tax) on every new tire sold in Ontario, and recognizing that used tires take up much needed space in existing landfill sites, the government should establish used tire depots in various regions of Ontario where used tires would be collected and shredded for recycling, and further that the cost of developing and operating these sites be paid for from the revenues collected from the above-noted taxes. *March 19, 1990.*
42. *Mr Mackenzie*—Resolution—That, in the opinion of this House, recognizing the current Regulations covering hygiene on construction sites are outdated and in need of amendment; that requirements for the provision of toilet and washroom facilities should be fully reflected in the Regulations of the Occupational Health and Safety Act (Sections 89/90); and that the requirements should be both practical and workable, result in the improvement of jobsite working conditions, and hence improve productivity on construction jobsites in the province. 1. The owner/constructor/project manager shall provide toilet and washing facilities on all construction sites in accordance with the following: a) where there are 15 or more workers on a project for a minimum period of one month the facilities shall include one flush (non-chemical) toilet and one urinal and one basin; and b) for each additional 30 workers or part thereof, an additional flush toilet, urinal and wash basin shall be added to facilities. 2. The costs borne by the owner/constructor/project manager in meeting the responsibilities of sections 89 & 90 cannot be transferred to other subcontractors/forces on the project. 3. The owner/constructor/project manager shall have the option of providing the necessary facilities via access to facilities existing or adjacent to the worksite; via temporary fixed facilities constructed on the site; or via mobile units; conditional on site services being available. 4. On high-rise projects, the necessary facilities shall be made available on every fourth floor. 5. The toilet facilities provided shall be equipped as follows: a) within easy access of work sites, b) built so that the occupant is shielded from view, and protected from weather and falling objects. c) provided with natural or artificial lighting. d) provided with sufficient toilet paper and disinfectant. e) kept in a clean and sanitary condition. f) supplied with toilet seats and covers. g) heated to a minimum of 18 degrees C. h) suitably ventilated. 6. Basins provided shall have as a minimum standard a) hot and

cold running water. b) soap or hand cleaner. c) hand towels. 90 1.a). Where WHMIS-class products are present on the jobsite, washing facilities meeting the requirements of the applicable material safety data sheets shall be provided. b). If showers (with the exception of safety showers) are required, they shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) paper towels or individual hand towels. *March 21, 1990.*

45. *Mr Rae* (York South)—Resolution—That, in the opinion of this House, recognizing that unequal opportunity for employment and promotion exists in the province of Ontario for women, members of visible minority groups, native persons and people with disabilities, and recognizing that voluntary efforts to increase the representation of employable persons with such characteristics by employers have profoundly failed in both the private and public sectors of employment in Ontario, and recognizing that the only remedy to such an inequitable situation in Ontario is the introduction of a legislated mandatory employment equity program with enforceable goals and timetables, in both the private and public sectors, and with an emphasis on removing existing barriers to employment and promotion through the provision by government of such important and necessary services as job training, and child care, all parties in Ontario should join together to secure the enactment in the current legislative session of such employment equity legislation for Ontario. *March 22, 1990.*
50. *Mr Cooke* (Windsor-Riverside)—Resolution—That, in the opinion of this House, recognizing that Canada Post, with the sanction of the federal government of Canada, has undertaken to close 5,221 rural post offices by 1996 and has already closed 175 post offices in spite of massive opposition from individual Canadians and organizations such as the Canadian Municipalities' Association and several provincial governments, and recognizing that closing or privatization of the rural post office undermines over eight decades of uninterrupted service to thousands of Ontarians who live in rural areas, the Government of Ontario should express its dissatisfaction to the federal government of Canada and Canada Post for its present action and strongly urges Canada Post to cease this demise of a system that has well served its rural clientel; and, further that Canada Post return to providing and encouraging the already proven system of existing post offices that will continue to link rural customers with a reliable and cost effective communications system. *April 19, 1990.*
51. *Mr Daigeler*—Resolution—That, in the opinion of this House, recognizing that the Canadian Criminal Justice Association in their 1989 paper on safer Communities has called on the provinces to play a major role in the promotion of crime prevention through social development, the Government of Ontario should accept crime prevention as a significant and integral part of public policy, especially in education, housing, social services and health, and continue to create a social environment that nurtures respect for the law, peace and security of its citizens, but also addresses the root causes of crime. *May 3, 1990.*
53. *Mr Morin-Strom*—Resolution—That, in the opinion of this House, recognizing that municipal solid waste should be reduced as much as possible so as

to eliminate the need for more landfill sites, and recognizing that each region of the province should solve its own waste problems, the Government of Ontario should adopt a policy that no municipal or other garbage from southern Ontario should be shipped to any location in northern Ontario for treatment or disposal. *May 17, 1990.*

QUESTIONS

(Questions are to appear on the day after they are tabled and on every subsequent day in the week they are tabled and then subsequently only on each Monday until an Answer (other than an Interim Answer) is tabled. A question tabled on a Thursday will appear on each day of the following week.)

459. *Mr Cousens*—Enquiry of the Ministry—Would the Minister of Education provide a list of all public and separate school boards and give their approved budgets for the fiscal year 1990-91. Would the Minister also list those public and separate school boards that have had a deficit for the fiscal years 1984-85, 1985-86, 1986-87, 1987-88, 1988-89 and 1989-90 and indicate how much the deficit is in total for each board. *May 31, 1990.*

GOVERNMENT MOTIONS

31. *Budget motion debated April 24, 25, 26 and 30, 1990.*
-

PRIVATE MEMBERS' MOTIONS

2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*
23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of

life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*

24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple “E” Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*
37. *Mr McGuigan*—Resolution—That in the opinion of this House, the Standing Committee on Social Development should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario and in particular, in conjunction with vaccine-injuries in Ontario, the Committee should consider and recommend:
 - an effective means of information about the benefits and risks of immunization and about known contra-indications;
 - an effective method of parental instruction about how to deal with reactions, should they occur;
 - an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations;
 - a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory. *December 20, 1989.*

39. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing the need to protect and enhance the environment; the Government of Ontario should not offer any grants or loans for private sector projects not utilizing the best available environmental technology, and further, grant and loan criteria—specifically the Premier's Technology fund—should be amended by the Government of Ontario to give priority to projects developing environmental technology. *March 19, 1990.*
40. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that everyone has the right to life, liberty and security of the person, and the right not to be deprived thereof except in accordance with the principles of fundamental justice; the Government of Ontario should petition the Government of Canada to add the fundamental right of enjoyment of property to the Canadian Charter of Rights. *March 19, 1990.*
41. *Mrs Marland*—Resolution—That, in the opinion of this House, recognizing that the Province of Ontario has imposed a special tax of \$5 (plus a 40-cent retail sales tax) on every new tire sold in Ontario, and recognizing that used tires take up much needed space in existing landfill sites, the government should establish used tire depots in various regions of Ontario where used tires would be collected and shredded for recycling, and further that the cost of developing and operating these sites be paid for from the revenues collected from the above-noted taxes. *March 19, 1990.*
42. *Mr Mackenzie*—Resolution—That, in the opinion of this House, recognizing the current Regulations covering hygiene on construction sites are outdated and in need of amendment; that requirements for the provision of toilet and washroom facilities should be fully reflected in the Regulations of the Occupational Health and Safety Act (Sections 89/90); and that the requirements should be both practical and workable, result in the improvement of jobsite working conditions, and hence improve productivity on construction jobsites in the province. 1. The owner/constructor/project manager shall provide toilet and washing facilities on all construction sites in accordance with the following: a) where there are 15 or more workers on a project for a minimum period of one month the facilities shall include one flush (non-chemical) toilet and one urinal and one basin; and b) for each additional 30 workers or part thereof, an additional flush toilet, urinal and wash basin s all be added to facilities. 2. The costs borne by the owner/constructor/project manager in meeting the responsibilities of sections 89 & 90 cannot be transferred to other subcontractors/forces on the project. 3. The owner/constructor/project manager shall have the option of providing the necessary facilities via access to facilities existing or adjacent to the worksite; via temporary fixed facilities constructed on the site; or via mobile units; conditional on site services being available. 4. On high-rise projects, the necessary facilities shall be made available on every fourth floor. 5. The toilet facilities provided shall be equipped as follows: a) within easy access of work sites, b) built so that the occupant is shielded from view, and protected from weather and falling objects. c) provided with natural or artificial lighting. d) provided with sufficient toilet paper and disinfectant. e) kept in a clean and sanitary condition. f) supplied with toilet seats and covers. g) heated to a minimum of 18 degrees C. h) suitably ventilated. 6. Basins provided shall have as a minimum standard a) hot and

cold running water. b) soap or hand cleaner. c) hand towels. 90 1.a). Where WHMIS-class products are present on the jobsite, washing facilities meeting the requirements of the applicable material safety data sheets shall be provided. b). If showers (with the exception of safety showers) are required, they shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) paper towels or individual hand towels. *March 21, 1990.*

45. *Mr Rae (York South)*—Resolution—That, in the opinion of this House, recognizing that unequal opportunity for employment and promotion exists in the province of Ontario for women, members of visible minority groups, native persons and people with disabilities, and recognizing that voluntary efforts to increase the representation of employable persons with such characteristics by employers have profoundly failed in both the private and public sectors of employment in Ontario, and recognizing that the only remedy to such an inequitable situation in Ontario is the introduction of a legislated mandatory employment equity program with enforceable goals and timetables, in both the private and public sectors, and with an emphasis on removing existing barriers to employment and promotion through the provision by government of such important and necessary services as job training, and child care, all parties in Ontario should join together to secure the enactment in the current legislative session of such employment equity legislation for Ontario. *March 22, 1990.*
50. *Mr Cooke (Windsor-Riverside)*—Resolution—That, in the opinion of this House, recognizing that Canada Post, with the sanction of the federal government of Canada, has undertaken to close 5,221 rural post offices by 1996 and has already closed 175 post offices in spite of massive opposition from individual Canadians and organizations such as the Canadian Municipalities' Association and several provincial governments, and recognizing that closing or privatization of the rural post office undermines over eight decades of uninterrupted service to thousands of Ontarians who live in rural areas, the Government of Ontario should express its dissatisfaction to the federal government of Canada and Canada Post for its present action and strongly urges Canada Post to cease this demise of a system that has well served its rural clientele; and, further that Canada Post return to providing and encouraging the already proven system of existing post offices that will continue to link rural customers with a reliable and cost effective communications system. *April 19, 1990.*
51. *Mr Daigeler*—Resolution—That, in the opinion of this House, recognizing that the Canadian Criminal Justice Association in their 1989 paper on safer Communities has called on the provinces to play a major role in the promotion of crime prevention through social development, the Government of Ontario should accept crime prevention as a significant and integral part of public policy, especially in education, housing, social services and health, and continue to create a social environment that nurtures respect for the law, peace and security of its citizens, but also addresses the root causes of crime. *May 3, 1990.*
53. *Mr Morin-Strom*—Resolution—That, in the opinion of this House, recognizing that municipal solid waste should be reduced as much as possible so as

to eliminate the need for more landfill sites, and recognizing that each region of the province should solve its own waste problems, the Government of Ontario should adopt a policy that no municipal or other garbage from southern Ontario should be shipped to any location in northern Ontario for treatment or disposal. *May 17, 1990.*

QUESTIONS

(Questions are to appear on the day after they are tabled and on every subsequent day in the week they are tabled and then subsequently only on each Monday until an Answer (other than an Interim Answer) is tabled. A question tabled on a Thursday will appear on each day of the following week.)

459. *Mr Cousens*—Enquiry of the Ministry—Would the Minister of Education provide a list of all public and separate school boards and give their approved budgets for the fiscal year 1990-91. Would the Minister also list those public and separate school boards that have had a deficit for the fiscal years 1984-85, 1985-86, 1986-87, 1987-88, 1988-89 and 1989-90 and indicate how much the deficit is in total for each board. *May 31, 1990.*
460. *Mr Cousens*—Enquiry of the Ministry—Would the Minister of Culture and Communications provide the production, printing and distribution costs for the report “A Strategy for Conserving Ontario’s Heritage” for both the English and French versions and indicate how many copies were printed in English and how many were printed in French. *June 6, 1990.*
461. *Mr Cousens*—Enquiry of the Ministry—Would the Minister of Natural Resources indicate the cost of installing bilingual signs in Ontario’s provincial parks, during fiscal years 1986-87, 1987-88, 1988-89, 1989-90 and projected 1990-91, on a park by park basis. *June 6, 1990.*
462. *Mr Cousens*—Enquiry of the Ministry—Would the Minister of Energy explain the rationale for the Ontario Hydro French Language Services policy that indicates, “If you’re bilingual and in a job that has been identified as requiring French proficiency, you will receive a weekly allowance which recognizes that additional skill that you bring to your job”. Is this policy a standard procedure in other parts of your Ministry. If so, where and when was it implemented. When was this policy implemented in Ontario Hydro. What is the size of the weekly allowance. How is it calculated. *June 6, 1990.*
463. *Mr Cousens*—Enquiry of the Ministry—Would the Minister of Government Services indicate whether the policy as enunciated in the Ontario Hydro French Language Services Procedures is a policy being followed throughout the province of Ontario Civil Service. The policy as defined in the Ontario Hydro French Language Services bulletin says, “If you’re bilingual and are in a job that has been identified as requiring French proficiency, you will receive a weekly allowance which will recognize the additional skill that you bring to your job”. Where is this policy implemented elsewhere in the Province of Ontario. Is this a standard procedure in the Ontario Government Ministries. What is the size of the weekly allowance that is being offered. *June 6, 1990.*

NOTICES

GOVERNMENT MOTIONS

31. *Budget motion debated April 24, 25, 26 and 30, 1990.*
-

PRIVATE MEMBERS' MOTIONS

2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*
23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of

life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*

24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple “E” Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*
37. *Mr McGuigan*—Resolution—That in the opinion of this House, the Standing Committee on Social Development should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario and in particular, in conjunction with vaccine-injuries in Ontario, the Committee should consider and recommend:
 - an effective means of information about the benefits and risks of immunization and about known contra-indications;
 - an effective method of parental instruction about how to deal with reactions, should they occur;
 - an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations;
 - a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory. *December 20, 1989.*

39. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing the need to protect and enhance the environment; the Government of Ontario should not offer any grants or loans for private sector projects not utilizing the best available environmental technology, and further, grant and loan criteria—specifically the Premier's Technology fund—should be amended by the Government of Ontario to give priority to projects developing environmental technology. *March 19, 1990.*
40. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that everyone has the right to life, liberty and security of the person, and the right not to be deprived thereof except in accordance with the principles of fundamental justice; the Government of Ontario should petition the Government of Canada to add the fundamental right of enjoyment of property to the Canadian Charter of Rights. *March 19, 1990.*
41. *Mrs Marland*—Resolution—That, in the opinion of this House, recognizing that the Province of Ontario has imposed a special tax of \$5 (plus a 40-cent retail sales tax) on every new tire sold in Ontario, and recognizing that used tires take up much needed space in existing landfill sites, the government should establish used tire depots in various regions of Ontario where used tires would be collected and shredded for recycling, and further that the cost of developing and operating these sites be paid for from the revenues collected from the above-noted taxes. *March 19, 1990.*
42. *Mr Mackenzie*—Resolution—That, in the opinion of this House, recognizing the current Regulations covering hygiene on construction sites are outdated and in need of amendment; that requirements for the provision of toilet and washroom facilities should be fully reflected in the Regulations of the Occupational Health and Safety Act (Sections 89/90); and that the requirements should be both practical and workable, result in the improvement of jobsite working conditions, and hence improve productivity on construction jobsites in the province. 1. The owner/constructor/project manager shall provide toilet and washing facilities on all construction sites in accordance with the following: a) where there are 15 or more workers on a project for a minimum period of one month the facilities shall include one flush (non-chemical) toilet and one urinal and one basin; and b) for each additional 30 workers or part thereof, an additional flush toilet, urinal and wash basin shall be added to facilities. 2. The costs borne by the owner/constructor/project manager in meeting the responsibilities of sections 89 & 90 cannot be transferred to other subcontractors/forces on the project. 3. The owner/constructor/project manager shall have the option of providing the necessary facilities via access to facilities existing or adjacent to the worksite; via temporary fixed facilities constructed on the site; or via mobile units; conditional on site services being available. 4. On high-rise projects, the necessary facilities shall be made available on every fourth floor. 5. The toilet facilities provided shall be equipped as follows: a) within easy access of work sites, b) built so that the occupant is shielded from view, and protected from weather and falling objects. c) provided with natural or artificial lighting. d) provided with sufficient toilet paper and disinfectant. e) kept in a clean and sanitary condition. f) supplied with toilet seats and covers. g) heated to a minimum of 18 degrees C. h) suitably ventilated. 6. Basins provided shall have as a minimum standard a) hot and

cold running water. b) soap or hand cleaner. c) hand towels. 90 1.a). Where WHMIS-class products are present on the jobsite, washing facilities meeting the requirements of the applicable material safety data sheets shall be provided. b). If showers (with the exception of safety showers) are required, they shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) paper towels or individual hand towels. *March 21, 1990.*

45. *Mr Rae (York South)*—Resolution—That, in the opinion of this House, recognizing that unequal opportunity for employment and promotion exists in the province of Ontario for women, members of visible minority groups, native persons and people with disabilities, and recognizing that voluntary efforts to increase the representation of employable persons with such characteristics by employers have profoundly failed in both the private and public sectors of employment in Ontario, and recognizing that the only remedy to such an inequitable situation in Ontario is the introduction of a legislated mandatory employment equity program with enforceable goals and timetables, in both the private and public sectors, and with an emphasis on removing existing barriers to employment and promotion through the provision by government of such important and necessary services as job training, and child care, all parties in Ontario should join together to secure the enactment in the current legislative session of such employment equity legislation for Ontario. *March 22, 1990.*
50. *Mr Cooke (Windsor-Riverside)*—Resolution—That, in the opinion of this House, recognizing that Canada Post, with the sanction of the federal government of Canada, has undertaken to close 5,221 rural post offices by 1996 and has already closed 175 post offices in spite of massive opposition from individual Canadians and organizations such as the Canadian Municipalities' Association and several provincial governments, and recognizing that closing or privatization of the rural post office undermines over eight decades of uninterrupted service to thousands of Ontarians who live in rural areas, the Government of Ontario should express its dissatisfaction to the federal government of Canada and Canada Post for its present action and strongly urges Canada Post to cease this demise of a system that has well served its rural clientele; and, further that Canada Post return to providing and encouraging the already proven system of existing post offices that will continue to link rural customers with a reliable and cost effective communications system. *April 19, 1990.*
51. *Mr Daigeler*—Resolution—That, in the opinion of this House, recognizing that the Canadian Criminal Justice Association in their 1989 paper on safer Communities has called on the provinces to play a major role in the promotion of crime prevention through social development, the Government of Ontario should accept crime prevention as a significant and integral part of public policy, especially in education, housing, social services and health, and continue to create a social environment that nurtures respect for the law, peace and security of its citizens, but also addresses the root causes of crime. *May 3, 1990.*
53. *Mr Morin-Strom*—Resolution—That, in the opinion of this House, recognizing that municipal solid waste should be reduced as much as possible so as

to eliminate the need for more landfill sites, and recognizing that each region of the province should solve its own waste problems, the Government of Ontario should adopt a policy that no municipal or other garbage from southern Ontario should be shipped to any location in northern Ontario for treatment or disposal. *May 17, 1990.*

SPECIAL DEBATES

OPPOSITION DAYS

4. *Mr Reville*—Opposition Day—As Canada becomes a signatory of the United Nations Convention on the Rights of the Child—a reaffirmation that children's rights require special protection and a recognition that children require an atmosphere of happiness, love and understanding—tens of thousands of Ontario's children are beset by sexual and physical abuse, drugs, hunger, homelessness and despair, therefore we call on this government to live up to the obligations set out in the Convention on the Rights of the Child by putting in place the policies, programs and legislation necessary to ensure that children become our most precious resource in fact as well as in our societal mythology. *To be debated Wednesday, June 13, 1990.* Minister of Community and Social Services.

QUESTIONS

(Questions are to appear on the day after they are tabled and on every subsequent day in the week they are tabled and then subsequently only on each Monday until an Answer (other than an Interim Answer) is tabled. A question tabled on a Thursday will appear on each day of the following week.)

459. *Mr Cousens*—Enquiry of the Ministry—Would the Minister of Education provide a list of all public and separate school boards and give their approved budgets for the fiscal year 1990-91. Would the Minister also list those public and separate school boards that have had a deficit for the fiscal years 1984-85, 1985-86, 1986-87, 1987-88, 1988-89 and 1989-90 and indicate how much the deficit is in total for each board. *May 31, 1990.*
460. *Mr Cousens*—Enquiry of the Ministry—Would the Minister of Culture and Communications provide the production, printing and distribution costs for the report “A Strategy for Conserving Ontario’s Heritage” for both the English and French versions and indicate how many copies were printed in English and how many were printed in French. *June 6, 1990.*
461. *Mr Cousens*—Enquiry of the Ministry—Would the Minister of Natural Resources indicate the cost of installing bilingual signs in Ontario’s provincial parks, during fiscal years 1986-87, 1987-88, 1988-89, 1989-90 and projected 1990-91, on a park by park basis. *June 6, 1990.*
462. *Mr Cousens*—Enquiry of the Ministry—Would the Minister of Energy explain the rationale for the Ontario Hydro French Language Services policy that indicates, “If you’re bilingual and in a job that has been identified as requiring French proficiency, you will receive a weekly allowance which recognizes that additional skill that you bring to your job”. Is this policy a standard procedure in other parts of your Ministry. If so, where and when was it implemented. When was this policy implemented in Ontario Hydro. What is the size of the weekly allowance. How is it calculated. *June 6, 1990.*
463. *Mr Cousens*—Enquiry of the Ministry—Would the Minister of Government Services indicate whether the policy as enunciated in the Ontario Hydro French Language Services Procedures is a policy being followed throughout the province of Ontario Civil Service. The policy as defined in the Ontario Hydro French Language Services bulletin says, “If you’re bilingual and are in a job that has been identified as requiring French proficiency, you will receive a weekly allowance which will recognize the additional skill that you bring to your job”. Where is this policy implemented elsewhere in the Province of Ontario. Is this a standard procedure in the Ontario Government Ministries. What is the size of the weekly allowance that is being offered. *June 6, 1990.*
464. *Mr Runciman*—Enquiry of the Ministry—Would the Minister of Transportation be prepared to reinstate, through GO Transit or other Crown corporations, various rail services recently cut by the Federal Government in

order to preserve convenient transportation across Ontario and not only within the Greater Toronto Area. *June 7, 1990.*

465. *Mr Runciman*—Enquiry of the Ministry—Would the Minister of Health recommend that psycho-geriatric hospital beds be considered part of the Long Term Care Package and charged for in the same way as other chronic-care facilities and that these beds only be used by those who are a danger to themselves or have acute psychiatric problems. *June 7, 1990.*

31. *Budget motion debated April 24, 25, 26 and 30, 1990.*

PRIVATE MEMBERS' MOTIONS

2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.
- Therefore, this House:
- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*
23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of

life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*

24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple “E” Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*
37. *Mr McGuigan*—Resolution—That in the opinion of this House, the Standing Committee on Social Development should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario and in particular, in conjunction with vaccine-injuries in Ontario, the Committee should consider and recommend:
 - an effective means of information about the benefits and risks of immunization and about known contra-indications;
 - an effective method of parental instruction about how to deal with reactions, should they occur;
 - an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations;
 - a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory. *December 20, 1989.*

39. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing the need to protect and enhance the environment; the Government of Ontario should not offer any grants or loans for private sector projects not utilizing the best available environmental technology, and further, grant and loan criteria—specifically the Premier's Technology fund—should be amended by the Government of Ontario to give priority to projects developing environmental technology. *March 19, 1990.*
40. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that everyone has the right to life, liberty and security of the person, and the right not to be deprived thereof except in accordance with the principles of fundamental justice; the Government of Ontario should petition the Government of Canada to add the fundamental right of enjoyment of property to the Canadian Charter of Rights. *March 19, 1990.*
41. *Mrs Marland*—Resolution—That, in the opinion of this House, recognizing that the Province of Ontario has imposed a special tax of \$5 (plus a 40-cent retail sales tax) on every new tire sold in Ontario, and recognizing that used tires take up much needed space in existing landfill sites, the government should establish used tire depots in various regions of Ontario where used tires would be collected and shredded for recycling, and further that the cost of developing and operating these sites be paid for from the revenues collected from the above-noted taxes. *March 19, 1990.*
42. *Mr Mackenzie*—Resolution—That, in the opinion of this House, recognizing the current Regulations covering hygiene on construction sites are outdated and in need of amendment; that requirements for the provision of toilet and washroom facilities should be fully reflected in the Regulations of the Occupational Health and Safety Act (Sections 89/90); and that the requirements should be both practical and workable, result in the improvement of jobsite working conditions, and hence improve productivity on construction jobsites in the province. 1. The owner/constructor/project manager shall provide toilet and washing facilities on all construction sites in accordance with the following: a) where there are 15 or more workers on a project for a minimum period of one month the facilities shall include one flush (non-chemical) toilet and one urinal and one basin; and b) for each additional 30 workers or part thereof, an additional flush toilet, urinal and wash basin shall be added to facilities. 2. The costs borne by the owner/constructor/project manager in meeting the responsibilities of sections 89 & 90 cannot be transferred to other subcontractors/forces on the project. 3. The owner/constructor/project manager shall have the option of providing the necessary facilities via access to facilities existing or adjacent to the worksite; via temporary fixed facilities constructed on the site; or via mobile units; conditional on site services being available. 4. On high-rise projects, the necessary facilities shall be made available on every fourth floor. 5. The toilet facilities provided shall be equipped as follows: a) within easy access of work sites, b) built so that the occupant is shielded from view, and protected from weather and falling objects. c) provided with natural or artificial lighting. d) provided with sufficient toilet paper and disinfectant. e) kept in a clean and sanitary condition. f) supplied with toilet seats and covers. g) heated to a minimum of 18 degrees C. h) suitably ventilated. 6. Basins provided shall have as a minimum standard a) hot and

cold running water. b) soap or hand cleaner. c) hand towels. 90 1.a). Where WHMIS-class products are present on the jobsite, washing facilities meeting the requirements of the applicable material safety data sheets shall be provided. b). If showers (with the exception of safety showers) are required, they shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) paper towels or individual hand towels. *March 21, 1990.*

45. *Mr Rae (York South)*—Resolution—That, in the opinion of this House, recognizing that unequal opportunity for employment and promotion exists in the province of Ontario for women, members of visible minority groups, native persons and people with disabilities, and recognizing that voluntary efforts to increase the representation of employable persons with such characteristics by employers have profoundly failed in both the private and public sectors of employment in Ontario, and recognizing that the only remedy to such an inequitable situation in Ontario is the introduction of a legislated mandatory employment equity program with enforceable goals and timetables, in both the private and public sectors, and with an emphasis on removing existing barriers to employment and promotion through the provision by government of such important and necessary services as job training, and child care, all parties in Ontario should join together to secure the enactment in the current legislative session of such employment equity legislation for Ontario. *March 22, 1990.*
 50. *Mr Cooke (Windsor-Riverside)*—Resolution—That, in the opinion of this House, recognizing that Canada Post, with the sanction of the federal government of Canada, has undertaken to close 5,221 rural post offices by 1996 and has already closed 175 post offices in spite of massive opposition from individual Canadians and organizations such as the Canadian Municipalities' Association and several provincial governments, and recognizing that closing or privatization of the rural post office undermines over eight decades of uninterrupted service to thousands of Ontarians who live in rural areas, the Government of Ontario should express its dissatisfaction to the federal government of Canada and Canada Post for its present action and strongly urges Canada Post to cease this demise of a system that has well served its rural clientel; and, further that Canada Post return to providing and encouraging the already proven system of existing post offices that will continue to link rural customers with a reliable and cost effective communications system. *April 19, 1990.*

SPECIAL DEBATES

OPPOSITION DAYS

4. *Mr Reville*—Opposition Day—As Canada becomes a signatory of the United Nations Convention on the Rights of the Child—a reaffirmation that children's rights require special protection and a recognition that children require an atmosphere of happiness, love and understanding—tens of thousands of Ontario's children are beset by sexual and physical abuse, drugs, hunger, homelessness and despair, therefore we call on this government to live up to the obligations set out in the Convention on the Rights of the Child by putting in place the policies, programs and legislation necessary to ensure that children become our most precious resource in fact as well as in our societal mythology. *To be debated Wednesday, June 13, 1990.* Minister of Community and Social Services.

NOTICES

GOVERNMENT MOTIONS

31. *Budget motion debated April 24, 25, 26 and 30, 1990.*
-

PRIVATE MEMBERS' MOTIONS

2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*
23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of

life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*

24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple “E” Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*
37. *Mr McGuigan*—Resolution—That in the opinion of this House, the Standing Committee on Social Development should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario and in particular, in conjunction with vaccine-injuries in Ontario, the Committee should consider and recommend:

 - an effective means of information about the benefits and risks of immunization and about known contra-indications;
 - an effective method of parental instruction about how to deal with reactions, should they occur;
 - an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations;
 - a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory. *December 20, 1989.*

39. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing the need to protect and enhance the environment; the Government of Ontario should not offer any grants or loans for private sector projects not utilizing the best available environmental technology, and further, grant and loan criteria—specifically the Premier's Technology fund—should be amended by the Government of Ontario to give priority to projects developing environmental technology. *March 19, 1990.*
40. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that everyone has the right to life, liberty and security of the person, and the right not to be deprived thereof except in accordance with the principles of fundamental justice; the Government of Ontario should petition the Government of Canada to add the fundamental right of enjoyment of property to the Canadian Charter of Rights. *March 19, 1990.*
41. *Mrs Marland*—Resolution—That, in the opinion of this House, recognizing that the Province of Ontario has imposed a special tax of \$5 (plus a 40-cent retail sales tax) on every new tire sold in Ontario, and recognizing that used tires take up much needed space in existing landfill sites, the government should establish used tire depots in various regions of Ontario where used tires would be collected and shredded for recycling, and further that the cost of developing and operating these sites be paid for from the revenues collected from the above-noted taxes. *March 19, 1990.*
42. *Mr Mackenzie*—Resolution—That, in the opinion of this House, recognizing the current Regulations covering hygiene on construction sites are outdated and in need of amendment; that requirements for the provision of toilet and washroom facilities should be fully reflected in the Regulations of the Occupational Health and Safety Act (Sections 89/90); and that the requirements should be both practical and workable, result in the improvement of jobsite working conditions, and hence improve productivity on construction jobsites in the province. 1. The owner/constructor/project manager shall provide toilet and washing facilities on all construction sites in accordance with the following: a) where there are 15 or more workers on a project for a minimum period of one month the facilities shall include one flush (non-chemical) toilet and one urinal and one basin; and b) for each additional 30 workers or part thereof, an additional flush toilet, urinal and wash basin shall be added to facilities. 2. The costs borne by the owner/constructor/project manager in meeting the responsibilities of sections 89 & 90 cannot be transferred to other subcontractors/forces on the project. 3. The owner/constructor/project manager shall have the option of providing the necessary facilities via access to facilities existing or adjacent to the worksite; via temporary fixed facilities constructed on the site; or via mobile units; conditional on site services being available. 4. On high-rise projects, the necessary facilities shall be made available on every fourth floor. 5. The toilet facilities provided shall be equipped as follows: a) within easy access of work sites, b) built so that the occupant is shielded from view, and protected from weather and falling objects. c) provided with natural or artificial lighting. d) provided with sufficient toilet paper and disinfectant. e) kept in a clean and sanitary condition. f) supplied with toilet seats and covers. g) heated to a minimum of 18 degrees C. h) suitably ventilated. 6. Basins provided shall have as a minimum standard a) hot and

cold running water. b) soap or hand cleaner. c) hand towels. 90 1.a). Where WHMIS-class products are present on the jobsite, washing facilities meeting the requirements of the applicable material safety data sheets shall be provided. b). If showers (with the exception of safety showers) are required, they shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) paper towels or individual hand towels. *March 21, 1990.*

45. *Mr Rae (York South)*—Resolution—That, in the opinion of this House, recognizing that unequal opportunity for employment and promotion exists in the province of Ontario for women, members of visible minority groups, native persons and people with disabilities, and recognizing that voluntary efforts to increase the representation of employable persons with such characteristics by employers have profoundly failed in both the private and public sectors of employment in Ontario, and recognizing that the only remedy to such an inequitable situation in Ontario is the introduction of a legislated mandatory employment equity program with enforceable goals and timetables, in both the private and public sectors, and with an emphasis on removing existing barriers to employment and promotion through the provision by government of such important and necessary services as job training, and child care, all parties in Ontario should join together to secure the enactment in the current legislative session of such employment equity legislation for Ontario. *March 22, 1990.*

50. *Mr Cooke (Windsor-Riverside)*—Resolution—That, in the opinion of this House, recognizing that Canada Post, with the sanction of the federal government of Canada, has undertaken to close 5,221 rural post offices by 1996 and has already closed 175 post offices in spite of massive opposition from individual Canadians and organizations such as the Canadian Municipalities' Association and several provincial governments, and recognizing that closing or privatization of the rural post office undermines over eight decades of uninterrupted service to thousands of Ontarians who live in rural areas, the Government of Ontario should express its dissatisfaction to the federal government of Canada and Canada Post for its present action and strongly urges Canada Post to cease this demise of a system that has well served its rural clientele; and, further that Canada Post return to providing and encouraging the already proven system of existing post offices that will continue to link rural customers with a reliable and cost effective communications system. *April 19, 1990.*

SPECIAL DEBATES

OPPOSITION DAYS

4. *Mr Reville*—Opposition Day—As Canada becomes a signatory of the United Nations Convention on the Rights of the Child—a reaffirmation that children's rights require special protection and a recognition that children require an atmosphere of happiness, love and understanding—tens of thousands of Ontario's children are beset by sexual and physical abuse, drugs, hunger, homelessness and despair, therefore we call on this government to live up to the obligations set out in the Convention on the Rights of the Child by putting in place the policies, programs and legislation necessary to ensure that children become our most precious resource in fact as well as in our societal mythology. *To be debated Wednesday, June 13, 1990.* Minister of Community and Social Services.

NOTICES

GOVERNMENT MOTIONS

31. *Budget motion debated April 24, 25, 26 and 30, 1990.*

MOTION OF NON-CONFIDENCE UNDER STANDING ORDER 42(a)

3. *Mr Laughren*—Notice—That this House condemns the Government of Ontario for its failure to recognize:

- that Northern Ontario has been a source of enormous wealth for the private sector;
- that Northern Ontario has been a source of enormous revenues for the provincial government;
- that the provincial government puts very little revenue back into the north;
- that the roads in northern Ontario are in terrible shape;
- that the Liberal government has not proceeded with serious 4-laning of highways in the north;
- that the delivery of health care services in the north is still inferior;
- that northern municipalities have particular problems of boom and bust while the Liberal government freezes unconditional grants;
- that forestry jobs are threatened because of this government's failure to live up to its commitment to provide seedlings and because of the continuing practice of clear-cutting;
- that almost no attempts have been made to diversify the economy to create jobs nor to work with the private sector and create meaningful jobs when serious layoffs occur;
- that the Ontario government continues to treat northern Ontario citizens like second class citizens;

therefore this government has lost the confidence of this House. *June 13, 1990.*

PRIVATE MEMBERS' MOTIONS

2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discrimin-

ated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*

8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*
23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*
24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the

best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*

28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple “E” Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*
37. *Mr McGuigan*—Resolution—That in the opinion of this House, the Standing Committee on Social Development should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario and in particular, in conjunction with vaccine-injuries in Ontario, the Committee should consider and recommend:
 - an effective means of information about the benefits and risks of immunization and about known contra-indications;
 - an effective method of parental instruction about how to deal with reactions, should they occur;
 - an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations;
 - a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory. *December 20, 1989.*
39. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing the need to protect and enhance the environment; the Government of Ontario should not offer any grants or loans for private sector projects not utilizing the best available environmental technology, and further, grant and loan criteria—specifically the Premier’s Technology fund—should be amended by the Government of Ontario to give priority to projects developing environmental technology. *March 19, 1990.*
40. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that everyone has the right to life, liberty and security of the person, and the

right not to be deprived thereof except in accordance with the principles of fundamental justice; the Government of Ontario should petition the Government of Canada to add the fundamental right of enjoyment of property to the Canadian Charter of Rights. *March 19, 1990.*

41. *Mrs Marland*—Resolution—That, in the opinion of this House, recognizing that the Province of Ontario has imposed a special tax of \$5 (plus a 40-cent retail sales tax) on every new tire sold in Ontario, and recognizing that used tires take up much needed space in existing landfill sites, the government should establish used tire depots in various regions of Ontario where used tires would be collected and shredded for recycling, and further that the cost of developing and operating these sites be paid for from the revenues collected from the above-noted taxes. *March 19, 1990.*
42. *Mr Mackenzie*—Resolution—That, in the opinion of this House, recognizing the current Regulations covering hygiene on construction sites are outdated and in need of amendment; that requirements for the provision of toilet and washroom facilities should be fully reflected in the Regulations of the Occupational Health and Safety Act (Sections 89/90); and that the requirements should be both practical and workable, result in the improvement of jobsite working conditions, and hence improve productivity on construction jobsites in the province. 1. The owner/constructor/project manager shall provide toilet and washing facilities on all construction sites in accordance with the following: a) where there are 15 or more workers on a project for a minimum period of one month the facilities shall include one flush (non-chemical) toilet and one urinal and one basin; and b) for each additional 30 workers or part thereof, an additional flush toilet, urinal and wash basin shall be added to facilities. 2. The costs borne by the owner/constructor/project manager in meeting the responsibilities of sections 89 & 90 cannot be transferred to other subcontractors/forces on the project. 3. The owner/constructor/project manager shall have the option of providing the necessary facilities via access to facilities existing or adjacent to the worksite; via temporary fixed facilities constructed on the site; or via mobile units; conditional on site services being available. 4. On high-rise projects, the necessary facilities shall be made available on every fourth floor. 5. The toilet facilities provided shall be equipped as follows: a) within easy access of work sites, b) built so that the occupant is shielded from view, and protected from weather and falling objects. c) provided with natural or artificial lighting. d) provided with sufficient toilet paper and disinfectant. e) kept in a clean and sanitary condition. f) supplied with toilet seats and covers. g) heated to a minimum of 18 degrees C. h) suitably ventilated. 6. Basins provided shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) hand towels. 90 1.a). Where WHMIS-class products are present on the jobsite, washing facilities meeting the requirements of the applicable material safety data sheets shall be provided. b). If showers (with the exception of safety showers) are required, they shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) paper towels or individual hand towels. *March 21, 1990.*
45. *Mr Rae (York South)*—Resolution—That, in the opinion of this House, recognizing that unequal opportunity for employment and promotion exists

in the province of Ontario for women, members of visible minority groups, native persons and people with disabilities, and recognizing that voluntary efforts to increase the representation of employable persons with such characteristics by employers have profoundly failed in both the private and public sectors of employment in Ontario, and recognizing that the only remedy to such an inequitable situation in Ontario is the introduction of a legislated mandatory employment equity program with enforceable goals and timetables, in both the private and public sectors, and with an emphasis on removing existing barriers to employment and promotion through the provision by government of such important and necessary services as job training, and child care, all parties in Ontario should join together to secure the enactment in the current legislative session of such employment equity legislation for Ontario. *March 22, 1990.*

50. *Mr Cooke (Windsor-Riverside)*—Resolution—That, in the opinion of this House, recognizing that Canada Post, with the sanction of the federal government of Canada, has undertaken to close 5,221 rural post offices by 1996 and has already closed 175 post offices in spite of massive opposition from individual Canadians and organizations such as the Canadian Municipalities' Association and several provincial governments, and recognizing that closing or privatization of the rural post office undermines over eight decades of uninterrupted service to thousands of Ontarians who live in rural areas, the Government of Ontario should express its dissatisfaction to the federal government of Canada and Canada Post for its present action and strongly urges Canada Post to cease this demise of a system that has well served its rural clientel; and, further that Canada Post return to providing and encouraging the already proven system of existing post offices that will continue to link rural customers with a reliable and cost effective communications system. *April 19, 1990.*
51. *Ms Poole*—Resolution—That, in the opinion of this House, since the Canadian Council of Ministers of the Environment has recognized that waste management is an urgent and pressing national problem, and that per capita consumption of packaging in Canada amounts to an estimated one (1) tonne of packaging per family per year, and that eighty (80) percent of the packaging used in Canada is managed through disposal, thereby squandering natural resources, increasing financial expenditures to deal with materials not fully utilized, consuming valuable land for disposal purposes, creating various pollutants, threatening wildlife, causing aesthetic unsightliness, and leaving a legacy of environmental degradation to our children, and since the National Packaging Protocol endorsed by the Canadian Council of Ministers of the Environment in Vancouver on March 20, 1990, proposed a timetable for packaging reduction, but no framework for immediate regulation, and that opportunities exist for Ontario to take an international leadership role in regulating the reduction, re-use and recycling of packaging materials, and that the environmental protection industry offers unique opportunities to create new employment in Ontario, the Government of Ontario, in the event that the federal government fails to introduce such legislation on a national basis by the fall of 1990, should develop and introduce legislation requiring the reduction, re-use and recycling of packaging materials, in conjunction with other provincial jurisdictions that indicate a willingness to proceed on common terms. *June 13, 1990.*

52. *Mrs O'Neill (Ottawa-Rideau)*—Resolution—That, in the opinion of this House, recognizing that Ontario's beaches are a precious natural and recreational resource, and that the recreational viability of many of these beaches are placed at risk each summer by stormwater runoff after significant rainfalls, the Government of Ontario should continue to place a high priority on the study and implementation of stormwater research and management, and should rigorously foster the spirit of co-operation with Ontario's municipalities in the furtherance of the goal of clean beaches for the recreational enjoyment of Ontario's citizens. *June 13, 1990.*

SPECIAL DEBATES

OPPOSITION DAYS

4. *Mr Reville*—Opposition Day—As Canada becomes a signatory of the United Nations Convention on the Rights of the Child—a reaffirmation that children's rights require special protection and a recognition that children require an atmosphere of happiness, love and understanding—tens of thousands of Ontario's children are beset by sexual and physical abuse, drugs, hunger, homelessness and despair, therefore we call on this government to live up to the obligations set out in the Convention on the Rights of the Child by putting in place the policies, programs and legislation necessary to ensure that children become our most precious resource in fact as well as in our societal mythology. *To be debated today.* Minister of Community and Social Services.

NOTICES

GOVERNMENT MOTIONS

31. *Budget motion debated April 24, 25, 26 and 30, 1990.*
32. *Mr Ward*—Motion pursuant to Standing Order 6(b)—That, notwithstanding Standing Order 9, the House shall continue to meet from 6.00 p.m. to 12.00 midnight on June 18, 19, 20, 25, 26, 27 and 28, 1990, at which time the Speaker shall adjourn the House without motion until the next Sessional day. *June 14, 1990.*

PRIVATE MEMBERS' MOTIONS

2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
-
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrim-

ination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*

23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*
24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple “E” Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*
37. *Mr McGuigan*—Resolution—That in the opinion of this House, the Standing Committee on Social Development should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario and in particular, in conjunction with vaccine-injuries in Ontario, the Committee should consider and recommend:
 - an effective means of information about the benefits and risks of immunization and about known contra-indications;
 - an effective method of parental instruction about how to deal with reactions, should they occur;

- an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations;
- a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory. *December 20, 1989.*

39. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing the need to protect and enhance the environment; the Government of Ontario should not offer any grants or loans for private sector projects not utilizing the best available environmental technology, and further, grant and loan criteria—specifically the Premier's Technology fund—should be amended by the Government of Ontario to give priority to projects developing environmental technology. *March 19, 1990.*
40. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that everyone has the right to life, liberty and security of the person, and the right not to be deprived thereof except in accordance with the principles of fundamental justice; the Government of Ontario should petition the Government of Canada to add the fundamental right of enjoyment of property to the Canadian Charter of Rights. *March 19, 1990.*
41. *Mrs Marland*—Resolution—That, in the opinion of this House, recognizing that the Province of Ontario has imposed a special tax of \$5 (plus a 40-cent retail sales tax) on every new tire sold in Ontario, and recognizing that used tires take up much needed space in existing landfill sites, the government should establish used tire depots in various regions of Ontario where used tires would be collected and shredded for recycling, and further that the cost of developing and operating these sites be paid for from the revenues collected from the above-noted taxes. *March 19, 1990.*
42. *Mr Mackenzie*—Resolution—That, in the opinion of this House, recognizing the current Regulations covering hygiene on construction sites are outdated and in need of amendment; that requirements for the provision of toilet and washroom facilities should be fully reflected in the Regulations of the Occupational Health and Safety Act (Sections 89/90); and that the requirements should be both practical and workable, result in the improvement of jobsite working conditions, and hence improve productivity on construction jobsites in the province. 1. The owner/constructor/project manager shall provide toilet and washing facilities on all construction sites in accordance with the following: a) where there are 15 or more workers on a project for a minimum period of one month the facilities shall include one flush (non-chemical) toilet and one urinal and one basin; and b) for each additional 30 workers or part thereof, an additional flush toilet, urinal and wash basin shall be added to facilities. 2. The costs borne by the owner/constructor/project manager in meeting the responsibilities of sections 89 & 90 cannot be transferred to other subcontractors/forces on the project. 3. The owner/constructor/project manager shall have the option of providing the necessary facilities via access to facilities existing or adjacent to the worksite; via temporary fixed facilities constructed on the site; or via mobile units; conditional on site services being available. 4. On high-rise

projects, the necessary facilities shall be made available on every fourth floor. 5. The toilet facilities provided shall be equipped as follows: a) within easy access of work sites, b) built so that the occupant is shielded from view, and protected from weather and falling objects. c) provided with natural or artificial lighting. d) provided with sufficient toilet paper and disinfectant. e) kept in a clean and sanitary condition. f) supplied with toilet seats and covers. g) heated to a minimum of 18 degrees C. h) suitably ventilated. 6. Basins provided shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) hand towels. 90 1.a). Where WHMIS-class products are present on the jobsite, washing facilities meeting the requirements of the applicable material safety data sheets shall be provided. b). If showers (with the exception of safety showers) are required, they shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) paper towels or individual hand towels. *March 21, 1990.*

45. *Mr Rae* (York South)—Resolution—That, in the opinion of this House, recognizing that unequal opportunity for employment and promotion exists in the province of Ontario for women, members of visible minority groups, native persons and people with disabilities, and recognizing that voluntary efforts to increase the representation of employable persons with such characteristics by employers have profoundly failed in both the private and public sectors of employment in Ontario, and recognizing that the only remedy to such an inequitable situation in Ontario is the introduction of a legislated mandatory employment equity program with enforceable goals and timetables, in both the private and public sectors, and with an emphasis on removing existing barriers to employment and promotion through the provision by government of such important and necessary services as job training, and child care, all parties in Ontario should join together to secure the enactment in the current legislative session of such employment equity legislation for Ontario. *March 22, 1990.*
50. *Mr Cooke* (Windsor-Riverside)—Resolution—That, in the opinion of this House, recognizing that Canada Post, with the sanction of the federal government of Canada, has undertaken to close 5,221 rural post offices by 1996 and has already closed 175 post offices in spite of massive opposition from individual Canadians and organizations such as the Canadian Municipalities' Association and several provincial governments, and recognizing that closing or privatization of the rural post office undermines over eight decades of uninterrupted service to thousands of Ontarians who live in rural areas, the Government of Ontario should express its dissatisfaction to the federal government of Canada and Canada Post for its present action and strongly urges Canada Post to cease this demise of a system that has well served its rural clientel; and, further that Canada Post return to providing and encouraging the already proven system of existing post offices that will continue to link rural customers with a reliable and cost effective communications system. *April 19, 1990.*
54. *Ms Poole*—Resolution—That, in the opinion of this House, since the Canadian Council of Ministers of the Environment has recognized that waste management is an urgent and pressing national problem, and that per capita consumption of packaging in Canada amounts to an estimated one (1)

tonne of packaging per family per year, and that eighty (80) percent of the packaging used in Canada is managed through disposal, thereby squandering natural resources, increasing financial expenditures to deal with materials not fully utilized, consuming valuable land for disposal purposes, creating various pollutants, threatening wildlife, causing aesthetic unsightliness, and leaving a legacy of environmental degradation to our children, and since the National Packaging Protocol endorsed by the Canadian Council of Ministers of the Environment in Vancouver on March 20, 1990, proposed a timetable for packaging reduction, but no framework for immediate regulation, and that opportunities exist for Ontario to take an international leadership role in regulating the reduction, re-use and recycling of packaging materials, and that the environmental protection industry offers unique opportunities to create new employment in Ontario, the Government of Ontario, in the event that the federal government fails to introduce such legislation on a national basis by the fall of 1990, should develop and introduce legislation requiring the reduction, re-use and recycling of packaging materials, in conjunction with other provincial jurisdictions that indicate a willingness to proceed on common terms. *June 13, 1990.*

55. *Mrs O'Neill (Ottawa-Rideau)*—Resolution—That, in the opinion of this House, recognizing that Ontario's beaches are a precious natural and recreational resource, and that the recreational viability of many of these beaches are placed at risk each summer by stormwater runoff after significant rainfalls, the Government of Ontario should continue to place a high priority on the study and implementation of stormwater research and management, and should rigorously foster the spirit of co-operation with Ontario's municipalities in the furtherance of the goal of clean beaches for the recreational enjoyment of Ontario's citizens. *June 13, 1990.*

SPECIAL DEBATES

MOTION OF NON-CONFIDENCE UNDER STANDING ORDER 42(a)

3. *Mr Laughren*—Notice—That this House condemns the Government of Ontario for its failure to recognize:
- that Northern Ontario has been a source of enormous wealth for the private sector;
 - that Northern Ontario has been a source of enormous revenues for the provincial government;
 - that the provincial government puts very little revenue back into the north;
 - that the roads in northern Ontario are in terrible shape;
 - that the Liberal government has not proceeded with serious 4-laning of highways in the north;
 - that the delivery of health care services in the north is still inferior;
 - that northern municipalities have particular problems of boom and bust while the Liberal government freezes unconditional grants;
 - that forestry jobs are threatened because of this government's failure to live up to its commitment to provide seedlings and because of the continuing practice of clear-cutting;
 - that almost no attempts have been made to diversify the economy to create jobs nor to work with the private sector and create meaningful jobs when serious layoffs occur;
 - that the Ontario government continues to treat northern Ontario citizens like second class citizens;

therefore this government has lost the confidence of this House. *June 13, 1990.*

QUESTIONS

(Questions are to appear on the day after they are tabled and on every subsequent day in the week they are tabled and then subsequently only on each Monday until an Answer (other than an Interim Answer) is tabled. A question tabled on a Thursday will appear on each day of the following week.)

464. *Mr Runciman*—Enquiry of the Ministry—Would the Minister of Transportation be prepared to reinstate, through GO Transit or other Crown corporations, various rail services recently cut by the Federal Government in order to preserve convenient transportation across Ontario and not only within the Greater Toronto Area. *June 7, 1990.*
465. *Mr Runciman*—Enquiry of the Ministry—Would the Minister of Health recommend that psycho-geriatric hospital beds be considered part of the Long Term Care Package and charged for in the same way as other chronic-care facilities and that these beds only be used by those who are a danger to themselves or have acute psychiatric problems. *June 7, 1990.*
466. *Mr Philip (Etobicoke-Rexdale)*—Enquiry of the Ministry—Would the Minister of Education inform the House why the capital expenditure money was not approved for the “northern” secondary school even though it was listed as the first priority by the Peel Separate School Board. Also would the Minister indicate why other schools were approved instead of adhering to the ranking of priorities by the board and explain what the purpose is of requesting schools to submit their capital expenditure priorities if the ministry is going to overrule and second guess the boards. *June 14, 1990.*

GOVERNMENT MOTIONS

31. *Budget motion debated April 24, 25, 26 and 30, 1990.*
32. *Mr Ward*—Motion pursuant to Standing Order 6(b)—That, notwithstanding Standing Order 9, the House shall continue to meet from 6.00 p.m. to 12.00 midnight on June 18, 19, 20, 25, 26, 27 and 28, 1990, at which time the Speaker shall adjourn the House without motion until the next Sessional day. *June 14, 1990.*
33. *Mr Nixon* (Brant-Haldimand)—Resolution—That the Treasurer of Ontario be authorized to pay the salaries of the civil servants and other necessary payments pending the voting of supply for the period commencing July 1, 1990, and ending October 31, 1990, such payments to be charged to the proper appropriation following the voting of supply. *June 18, 1990.*

PRIVATE MEMBERS' MOTIONS

2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfran-

chise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*

23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*
24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple “E” Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*
37. *Mr McGuigan*—Resolution—That in the opinion of this House, the Standing Committee on Social Development should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario and in particular, in conjunction with vaccine-injuries in Ontario, the Committee should consider and recommend:

- an effective means of information about the benefits and risks of immunization and about known contra-indications;
- an effective method of parental instruction about how to deal with reactions, should they occur;
- an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations;
- a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory. *December 20, 1989.*

39. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing the need to protect and enhance the environment; the Government of Ontario should not offer any grants or loans for private sector projects not utilizing the best available environmental technology, and further, grant and loan criteria—specifically the Premier's Technology fund—should be amended by the Government of Ontario to give priority to projects developing environmental technology. *March 19, 1990.*
40. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that everyone has the right to life, liberty and security of the person, and the right not to be deprived thereof except in accordance with the principles of fundamental justice; the Government of Ontario should petition the Government of Canada to add the fundamental right of enjoyment of property to the Canadian Charter of Rights. *March 19, 1990.*
41. *Mrs Marland*—Resolution—That, in the opinion of this House, recognizing that the Province of Ontario has imposed a special tax of \$5 (plus a 40-cent retail sales tax) on every new tire sold in Ontario, and recognizing that used tires take up much needed space in existing landfill sites, the government should establish used tire depots in various regions of Ontario where used tires would be collected and shredded for recycling, and further that the cost of developing and operating these sites be paid for from the revenues collected from the above-noted taxes. *March 19, 1990.*
42. *Mr Mackenzie*—Resolution—That, in the opinion of this House, recognizing the current Regulations covering hygiene on construction sites are outdated and in need of amendment; that requirements for the provision of toilet and washroom facilities should be fully reflected in the Regulations of the Occupational Health and Safety Act (Sections 89/90); and that the requirements should be both practical and workable, result in the improvement of jobsite working conditions, and hence improve productivity on construction jobsites in the province. 1. The owner/constructor/project manager shall provide toilet and washing facilities on all construction sites in accordance with the following: a) where there are 15 or more workers on a project for a minimum period of one month the facilities shall include one flush (non-chemical) toilet and one urinal and one basin; and b) for each additional 30 workers or part thereof, an additional flush toilet, urinal and wash basin shall be added to facilities. 2. The costs borne by the owner/

constructor/project manager in meeting the responsibilities of sections 89 & 90 cannot be transferred to other subcontractors/forces on the project. 3. The owner/constructor/project manager shall have the option of providing the necessary facilities via access to facilities existing or adjacent to the worksite; via temporary fixed facilities constructed on the site; or via mobile units; conditional on site services being available. 4. On high-rise projects, the necessary facilities shall be made available on every fourth floor. 5. The toilet facilities provided shall be equipped as follows: a) within easy access of work sites, b) built so that the occupant is shielded from view, and protected from weather and falling objects. c) provided with natural or artificial lighting. d) provided with sufficient toilet paper and disinfectant. e) kept in a clean and sanitary condition. f) supplied with toilet seats and covers. g) heated to a minimum of 18 degrees C. h) suitably ventilated. 6. Basins provided shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) hand towels. 90 1.a). Where WHMIS-class products are present on the jobsite, washing facilities meeting the requirements of the applicable material safety data sheets shall be provided. b). If showers (with the exception of safety showers) are required, they shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) paper towels or individual hand towels. *March 21, 1990.*

45. *Mr Rae (York South)*—Resolution—That, in the opinion of this House, recognizing that unequal opportunity for employment and promotion exists in the province of Ontario for women, members of visible minority groups, native persons and people with disabilities, and recognizing that voluntary efforts to increase the representation of employable persons with such characteristics by employers have profoundly failed in both the private and public sectors of employment in Ontario, and recognizing that the only remedy to such an inequitable situation in Ontario is the introduction of a legislated mandatory employment equity program with enforceable goals and timetables, in both the private and public sectors, and with an emphasis on removing existing barriers to employment and promotion through the provision by government of such important and necessary services as job training, and child care, all parties in Ontario should join together to secure the enactment in the current legislative session of such employment equity legislation for Ontario. *March 22, 1990.*

50. *Mr Cooke (Windsor-Riverside)*—Resolution—That, in the opinion of this House, recognizing that Canada Post, with the sanction of the federal government of Canada, has undertaken to close 5,221 rural post offices by 1996 and has already closed 175 post offices in spite of massive opposition from individual Canadians and organizations such as the Canadian Municipalities' Association and several provincial governments, and recognizing that closing or privatization of the rural post office undermines over eight decades of uninterrupted service to thousands of Ontarians who live in rural areas, the Government of Ontario should express its dissatisfaction to the federal government of Canada and Canada Post for its present action and strongly urges Canada Post to cease this demise of a system that has well served its rural clientel; and, further that Canada Post return to providing and encouraging the already proven system of existing post offices

that will continue to link rural customers with a reliable and cost effective communications system. *April 19, 1990.*

54. *Ms Poole*—Resolution—That, in the opinion of this House, since the Canadian Council of Ministers of the Environment has recognized that waste management is an urgent and pressing national problem, and that per capita consumption of packaging in Canada amounts to an estimated one (1) tonne of packaging per family per year, and that eighty (80) percent of the packaging used in Canada is managed through disposal, thereby squandering natural resources, increasing financial expenditures to deal with materials not fully utilized, consuming valuable land for disposal purposes, creating various pollutants, threatening wildlife, causing aesthetic unsightliness, and leaving a legacy of environmental degradation to our children, and since the National Packaging Protocol endorsed by the Canadian Council of Ministers of the Environment in Vancouver on March 20, 1990, proposed a timetable for packaging reduction, but no framework for immediate regulation, and that opportunities exist for Ontario to take an international leadership role in regulating the reduction, re-use and recycling of packaging materials, and that the environmental protection industry offers unique opportunities to create new employment in Ontario, the Government of Ontario, in the event that the federal government fails to introduce such legislation on a national basis by the fall of 1990, should develop and introduce legislation requiring the reduction, re-use and recycling of packaging materials, in conjunction with other provincial jurisdictions that indicate a willingness to proceed on common terms. *June 13, 1990.*
 55. *Mrs O'Neill* (Ottawa-Rideau)—Resolution—That, in the opinion of this House, recognizing that Ontario's beaches are a precious natural and recreational resource, and that the recreational viability of many of these beaches are placed at risk each summer by stormwater runoff after significant rainfalls, the Government of Ontario should continue to place a high priority on the study and implementation of stormwater research and management, and should rigorously foster the spirit of co-operation with Ontario's municipalities in the furtherance of the goal of clean beaches for the recreational enjoyment of Ontario's citizens. *June 13, 1990.*

SPECIAL DEBATES

MOTION OF NON-CONFIDENCE UNDER STANDING ORDER 42(a)

3. *Mr Laughren*—Notice—That this House condemns the Government of Ontario for its failure to recognize:

- that Northern Ontario has been a source of enormous wealth for the private sector;
- that Northern Ontario has been a source of enormous revenues for the provincial government;
- that the provincial government puts very little revenue back into the north;
- that the roads in northern Ontario are in terrible shape;
- that the Liberal government has not proceeded with serious 4-laning of highways in the north;
- that the delivery of health care services in the north is still inferior;
- that northern municipalities have particular problems of boom and bust while the Liberal government freezes unconditional grants;
- that forestry jobs are threatened because of this government's failure to live up to its commitment to provide seedlings and because of the continuing practice of clear-cutting;
- that almost no attempts have been made to diversify the economy to create jobs nor to work with the private sector and create meaningful jobs when serious layoffs occur;
- that the Ontario government continues to treat northern Ontario citizens like second class citizens;

therefore this government has lost the confidence of this House. *June 13, 1990.*

462. *Mr Cousens*—Enquiry of the Ministry—Would the Minister of Energy explain the rationale for the Ontario Hydro French Language Services policy that indicates, "If you're bilingual and in a job that has been identified as requiring French proficiency, you will receive a weekly allowance which recognizes that additional skill that you bring to your job". Is this policy a standard procedure in other parts of your Ministry. If so, where and when was it implemented. When was this policy implemented in Ontario Hydro. What is the size of the weekly allowance. How is it calculated. *June 6, 1990.*
463. *Mr Cousens*—Enquiry of the Ministry—Would the Minister of Government Services indicate whether the policy as enunciated in the Ontario Hydro French Language Services Procedures is a policy being followed throughout the province of Ontario Civil Service. The policy as defined in the Ontario Hydro French Language Services bulletin says, "If you're bilingual and are in a job that has been identified as requiring French proficiency, you will receive a weekly allowance which will recognize the additional skill that you bring to your job". Where is this policy implemented elsewhere in the Province of Ontario. Is this a standard procedure in the

Ontario Government Ministries. What is the size of the weekly allowance that is being offered. *June 6, 1990.*

464. *Mr Runciman*—Enquiry of the Ministry—Would the Minister of Transportation be prepared to reinstate, through GO Transit or other Crown corporations, various rail services recently cut by the Federal Government in order to preserve convenient transportation across Ontario and not only within the Greater Toronto Area. *June 7, 1990.*
465. *Mr Runciman*—Enquiry of the Ministry—Would the Minister of Health recommend that psycho-geriatric hospital beds be considered part of the Long Term Care Package and charged for in the same way as other chronic-care facilities and that these beds only be used by those who are a danger to themselves or have acute psychiatric problems. *June 7, 1990.*
466. *Mr Philip* (Etobicoke-Rexdale)—Enquiry of the Ministry—Would the Minister of Education inform the House why the capital expenditure money was not approved for the “northern” secondary school even though it was listed as the first priority by the Peel Separate School Board. Also would the Minister indicate why other schools were approved instead of adhering to the ranking of priorities by the board and explain what the purpose is of requesting schools to submit their capital expenditure priorities if the ministry is going to overrule and second guess the boards. *June 14, 1990.*

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

(Precedence in accordance with the Standing Order 94(d).)

Ballot Item Numbers 55 and 56. *Debated June 14, 1990.*

Ballot Item Number 58. *To be debated June 28, 1990.*

Ms Poole—Resolution—That, in the opinion of this House, since the Canadian Council of Ministers of the Environment has recognized that waste management is an urgent and pressing national problem, and that per capita consumption of packaging in Canada amounts to an estimated one (1) tonne of packaging per family per year, and that eighty (80) percent of the packaging used in Canada is managed through disposal, thereby squandering natural resources, increasing financial expenditures to deal with materials not fully utilized, consuming valuable land for disposal purposes, creating various pollutants, threatening wildlife, causing aesthetic unsightliness, and leaving a legacy of environmental degradation to our children, and since the National Packaging Protocol endorsed by the Canadian Council of Ministers of the Environment in Vancouver on March 20, 1990, proposed a timetable for packaging reduction, but no framework for immediate regulation, and that opportunities exist for Ontario to take an international leadership role in regulating the reduction, re-use and recycling of packaging materials, and that the environmental protection industry offers unique opportunities to create new employment in Ontario, the Government of Ontario, in the event that the federal government fails to introduce such legislation on a national basis by the fall of 1990, should develop and introduce legislation requiring the reduction, re-use and recycling of packaging materials, in conjunction with other provincial jurisdictions that indicate a willingness to proceed on common terms.

Ballot Item Number 59. *To be debated June 28, 1990.*

Mrs O'Neill (Ottawa-Rideau)—Resolution—That, in the opinion of this House, recognizing that Ontario's beaches are a precious natural and recreational resource, and that the recreational viability of many of these beaches are placed at risk each summer by stormwater runoff after significant rainfalls, the Government of Ontario should continue to place a high priority on the study and implementation of stormwater research and management, and should rigorously foster the spirit of co-operation with Ontario's municipalities in the furtherance of the goal of clean beaches for the recreational enjoyment of Ontario's citizens.

SCHEDULE

CONSTITUTION AMENDMENT

PART I

Constitution Act, 1867

1. Section 25 of the *Constitution Act, 1867*, as enacted by section 2 of the *Constitution Amendment, 1987*, is amended by adding thereto, immediately after the word "province" wherever it occurs therein, the words "or territory".

2.(1) Subsection 101C(1) of the said Act, as enacted by section 6 of the *Constitution Amendment, 1987*, is amended by adding thereto, immediately after the word "province" wherever it occurs therein, the words "or territory".

(2) Subsection 101C(4) of the said Act, as enacted by section 6 of the *Constitution Amendment, 1987*, is amended by adding thereto, immediately after the word "province" where it occurs therein, the words ", or territory,".

3. Section 148 of the said Act, as enacted by section 8 of the *Constitution Amendment, 1987*, is renumbered as subsection 148(1) and is further amended by adding thereto the following subsection:

Participation of
Territories

"(2) The Prime Minister of Canada shall invite elected representatives of the governments of the Yukon Territory and the Northwest Territories to participate in the discussions on any item on the agenda of a conference convened under subsection (1) that, in the opinion of the Prime Minister, directly affects the Yukon Territory and the Northwest Territories."

Constitution Act, 1982

4. Section 43 of the *Constitution Act, 1982* is renumbered as subsection 43(1) and is further amended by adding thereto the following subsection:

Amendment
to New
Brunswick
Act

"(2) An amendment to the Act of the Legislature of New Brunswick entitled *An Act Recognizing the Equality of the Two Official Linguistic Communities in New Brunswick*, chapter O-1.1 of the Acts of New Brunswick, 1981, may be made by proclamation issued by the Governor General under the Great Seal of Canada only where so authorized by resolutions of the Senate and House of Commons and of the Legislative Assembly of New Brunswick."

5.(1) Subsection 50(2) of the said Act, as enacted by section 13 of the *Constitution Amendment, 1987*, is amended by adding thereto, immediately after paragraph (a) thereof, the following paragraph:

"(a.1) matters of interest to English-speaking and French-speaking linguistic minorities;"

(2) Section 50 of the said Act, as enacted by section 13 of the *Constitution Amendment, 1987*, is further amended by adding thereto the

following subsection:

Participation of the territories

"(3) The Prime Minister of Canada shall invite elected representatives of the governments of the Yukon Territory and the Northwest Territories to participate in the discussions on any item on the agenda of a conference convened under subsection (1) that, in the opinion of the Prime Minister, directly affects the Yukon Territory and the Northwest Territories."

6. The said Act is further amended by adding thereto, immediately after section 50 thereof, as enacted by section 13 of the *Constitution Amendment, 1987*, the following section:

Constitutional conference

"51.(1) A constitutional conference composed of the Prime Minister of Canada and the first ministers of the provinces shall be convened by the Prime Minister of Canada within one year after this Part comes into force and at least once in every third calendar year after the first such conference is convened.

Participation of aboriginal peoples

(2) Each conference convened under subsection (1) shall have included in its agenda matters of interest to the aboriginal peoples of Canada, and the Prime Minister of Canada shall invite representatives of those peoples to participate in the discussions on those matters.

Participation of territories

(3) The Prime Minister of Canada shall invite elected representatives of the governments of the Yukon Territory and the Northwest Territories to participate in the discussions on any item on the agenda of a conference convened under subsection (1) that, in the opinion of the Prime Minister, directly affects the Yukon Territory and the Northwest Territories.

Non-derogation (4) Nothing in this section shall be construed so as to derogate from section 35."

Constitution Amendment, 1987

7. Section 16 of the *Constitution Amendment, 1987* is amended by adding thereto, immediately after the reference to section 27 where it occurs therein, the following: "or 28".

PART II

Constitution Act, 1867

8. All that portion of section 22 of the *Constitution Act, 1867* following item 4 and preceding the last paragraph thereof is repealed and the following substituted therefor:

"which Four Divisions shall, subject to the provisions of this Act, be represented in the Senate as follows: Ontario by eighteen Senators; Quebec by twenty-four Senators; the Maritime Provinces and Prince Edward Island by twenty Senators, eight thereof representing Nova Scotia, eight thereof representing New Brunswick, and four thereof representing Prince Edward Island; the Western Provinces by thirty-two Senators, eight thereof representing Manitoba, eight thereof representing British Columbia, eight thereof representing Saskatchewan, and eight thereof representing Alberta; Newfoundland shall be entitled to be represented in the Senate by eight members; the Yukon Territory and the Northwest Territories shall be entitled to be represented in the Senate by one member each."

9. Section 27 of the said Act is repealed and the following substituted therefor:

Reduction
of Senate
to normal
number

"27. In case of such addition being at any time made, the Governor General shall not summon any person to the Senate, except on a further like direction by the Queen on the like recommendation, to represent one of the Four Divisions until such Division is represented by the number of Senators provided for by section 22 and no more."

Transi-
tional
provision

10. Notwithstanding section 22 of the *Constitution Act, 1867*, any province that is represented in the Senate on the coming into force of this Part by more Senators than are provided for under that section may continue to be so represented, but no additional persons may be summoned to the Senate to represent that province until the number of Senators representing that province falls below the number set out in section 22, and thereafter, subject to section 26, the number representing that province shall not exceed that number.

11.(1) This Part shall not come into force if an amendment in relation to the Senate that is consistent with the objectives set out in the *1990 Constitutional Agreement* signed at Ottawa on June 9, 1990 is made before July 1, 1995.

(2) If an amendment described in subsection (1) is not made before July 1, 1995, this Part shall come into force on that date.

Participa-
tion des
terri-
toires

(3) Le premier ministre du Canada invite des représentants élus des gouvernements du territoire du Yukon et des Territoires du Nord-Ouest à participer aux travaux relatifs à toute question placée à l'ordre du jour des conférences visées au paragraphe (1) et qui, selon lui, intéresse directement le territoire du Yukon et les Territoires du Nord-Ouest.

Non-
dérogation

(4) Le présent article n'a pas pour effet de déroger à l'article 35.»

Modification constitutionnelle de 1987

7. L'article 16 de la *Modification constitutionnelle de 1987* est modifié par insertion, après «27», de «ou 28».

PARTIE II

Loi constitutionnelle de 1867

8. Le passage de l'article 22 de la *Loi constitutionnelle de 1867* qui suit le point 4 et précède le dernier paragraphe est abrogé et remplacé par ce qui suit:

«les quatre divisions doivent (subordonnement aux révisions de la présente loi) être représentées dans le Sénat, ainsi qu'il suit : -- Ontario par dix-huit sénateurs; Québec par vingt-quatre sénateurs; les Provinces maritimes et l'Île-du-Prince-Édouard par vingt sénateurs, dont huit représentent la Nouvelle-Écosse, huit le Nouveau-Brunswick et quatre l'Île-du-Prince-Édouard; les provinces de l'Ouest par trente-deux sénateurs, dont huit représentent le Manitoba, huit la Colombie-Britannique, huit la Saskatchewan et huit l'Alberta; la province de Terre-Neuve aura droit d'être représentée au Sénat par huit sénateurs; le territoire du Yukon et les Territoires du Nord-Ouest ont le droit d'être représentés au Sénat par un sénateur chacun.»

9. L'article 27 de la même loi est abrogé et remplacé par ce qui suit :

Réduction
du Sénat
au nombre
régulier

«27. Dans le cas où le nombre des sénateurs serait ainsi en aucun temps augmenté, le gouverneur général ne mandera aucune personne au Sénat, sauf sur pareil ordre de la Reine donné à la suite de la même recommandation, tant que la représentation de chacune des quatre divisions du Canada ne sera pas revenue au nombre fixe visé à l'article 22.»

Disposi-
tion
transi-
toire

10. Par dérogation à l'article 22 de la *Loi constitutionnelle de 1867*, peut être maintenue la représentation au Sénat de toute province dont le nombre de sénateurs excède, à l'entrée en vigueur de la présente partie, celui prévu à cet article; toutefois, il ne peut être nommé de sénateurs pour représenter cette province tant que le nombre de ceux-ci n'est pas inférieur à celui prévu à l'article 22 de cette loi et, par la suite, sous réserve de l'article 26 de cette loi, le nombre de sénateurs pour cette province ne peut excéder cette limite.

11.(1) La présente partie n'entre pas en vigueur si une modification portant sur le Sénat, conforme aux paramètres énoncés dans l'*Entente constitutionnelle de 1990* signée à Ottawa le 9 juin 1990, est faite avant le 1^{er} juillet 1995.

(2) À défaut d'une modification visée au paragraphe (1), la présente partie entre en vigueur le 1^{er} juillet 1995.

Modification constitutionnelle de année de la proclamation.

PRIVATE MEMBERS' MOTIONS

2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*

8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and

- 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*

10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*

23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*

24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple “E” Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*
37. *Mr McGuigan*—Resolution—That in the opinion of this House, the Standing Committee on Social Development should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario and in particular, in conjunction with vaccine-injuries in Ontario, the Committee should consider and recommend:
 - an effective means of information about the benefits and risks of immunization and about known contra-indications;
 - an effective method of parental instruction about how to deal with reactions, should they occur;
 - an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations;
 - a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory. *December 20, 1989.*
39. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing the need to protect and enhance the environment; the Government of Ontario should not offer any grants or loans for private sector projects not utilizing the best available environmental technology, and further, grant and loan criteria—specifically the Premier’s Technology fund—should be amended

by the Government of Ontario to give priority to projects developing environmental technology. *March 19, 1990.*

40. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that everyone has the right to life, liberty and security of the person, and the right not to be deprived thereof except in accordance with the principles of fundamental justice; the Government of Ontario should petition the Government of Canada to add the fundamental right of enjoyment of property to the Canadian Charter of Rights. *March 19, 1990.*
41. *Mrs Marland*—Resolution—That, in the opinion of this House, recognizing that the Province of Ontario has imposed a special tax of \$5 (plus a 40-cent retail sales tax) on every new tire sold in Ontario, and recognizing that used tires take up much needed space in existing landfill sites, the government should establish used tire depots in various regions of Ontario where used tires would be collected and shredded for recycling, and further that the cost of developing and operating these sites be paid for from the revenues collected from the above-noted taxes. *March 19, 1990.*
42. *Mr Mackenzie*—Resolution—That, in the opinion of this House, recognizing the current Regulations covering hygiene on construction sites are outdated and in need of amendment; that requirements for the provision of toilet and washroom facilities should be fully reflected in the Regulations of the Occupational Health and Safety Act (Sections 89/90); and that the requirements should be both practical and workable, result in the improvement of jobsite working conditions, and hence improve productivity on construction jobsites in the province. 1. The owner/constructor/project manager shall provide toilet and washing facilities on all construction sites in accordance with the following: a) where there are 15 or more workers on a project for a minimum period of one month the facilities shall include one flush (non-chemical) toilet and one urinal and one basin; and b) for each additional 30 workers or part thereof, an additional flush toilet, urinal and wash basin shall be added to facilities. 2. The costs borne by the owner/constructor/project manager in meeting the responsibilities of sections 89 & 90 cannot be transferred to other subcontractors/forces on the project. 3. The owner/constructor/project manager shall have the option of providing the necessary facilities via access to facilities existing or adjacent to the worksite; via temporary fixed facilities constructed on the site; or via mobile units; conditional on site services being available. 4. On high-rise projects, the necessary facilities shall be made available on every fourth floor. 5. The toilet facilities provided shall be equipped as follows: a) within easy access of work sites, b) built so that the occupant is shielded from view, and protected from weather and falling objects. c) provided with natural or artificial lighting. d) provided with sufficient toilet paper and disinfectant. e) kept in a clean and sanitary condition. f) supplied with toilet seats and covers. g) heated to a minimum of 18 degrees C. h) suitably ventilated. 6. Basins provided shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) hand towels. 90 1.a). Where WHMIS-class products are present on the jobsite, washing facilities meeting the requirements of the applicable material safety data sheets shall be provided. b). If showers (with the exception of safety showers) are required, they shall have as a minimum standard a) hot and cold running

water. b) soap or hand cleaner. c) paper towels or individual hand towels.
March 21, 1990.

45. *Mr Rae* (York South)—Resolution—That, in the opinion of this House, recognizing that unequal opportunity for employment and promotion exists in the province of Ontario for women, members of visible minority groups, native persons and people with disabilities, and recognizing that voluntary efforts to increase the representation of employable persons with such characteristics by employers have profoundly failed in both the private and public sectors of employment in Ontario, and recognizing that the only remedy to such an inequitable situation in Ontario is the introduction of a legislated mandatory employment equity program with enforceable goals and timetables, in both the private and public sectors, and with an emphasis on removing existing barriers to employment and promotion through the provision by government of such important and necessary services as job training, and child care, all parties in Ontario should join together to secure the enactment in the current legislative session of such employment equity legislation for Ontario. *March 22, 1990.*
50. *Mr Cooke* (Windsor-Riverside)—Resolution—That, in the opinion of this House, recognizing that Canada Post, with the sanction of the federal government of Canada, has undertaken to close 5,221 rural post offices by 1996 and has already closed 175 post offices in spite of massive opposition from individual Canadians and organizations such as the Canadian Municipalities' Association and several provincial governments, and recognizing that closing or privatization of the rural post office undermines over eight decades of uninterrupted service to thousands of Ontarians who live in rural areas, the Government of Ontario should express its dissatisfaction to the federal government of Canada and Canada Post for its present action and strongly urges Canada Post to cease this demise of a system that has well served its rural clientele; and, further that Canada Post return to providing and encouraging the already proven system of existing post offices that will continue to link rural customers with a reliable and cost effective communications system. *April 19, 1990.*
54. *Ms Poole*—Resolution—That, in the opinion of this House, since the Canadian Council of Ministers of the Environment has recognized that waste management is an urgent and pressing national problem, and that per capita consumption of packaging in Canada amounts to an estimated one (1) tonne of packaging per family per year, and that eighty (80) percent of the packaging used in Canada is managed through disposal, thereby squandering natural resources, increasing financial expenditures to deal with materials not fully utilized, consuming valuable land for disposal purposes, creating various pollutants, threatening wildlife, causing aesthetic unsightliness, and leaving a legacy of environmental degradation to our children, and since the National Packaging Protocol endorsed by the Canadian Council of Ministers of the Environment in Vancouver on March 20, 1990, proposed a timetable for packaging reduction, but no framework for immediate regulation, and that opportunities exist for Ontario to take an international leadership role in regulating the reduction, re-use and recycling of packaging materials, and that the environmental protection industry offers unique opportunities to create new employment in Ontario, the Govern-

ment of Ontario, in the event that the federal government fails to introduce such legislation on a national basis by the fall of 1990, should develop and introduce legislation requiring the reduction, re-use and recycling of packaging materials, in conjunction with other provincial jurisdictions that indicate a willingness to proceed on common terms. *June 13, 1990.*

55. *Mrs O'Neill (Ottawa-Rideau)*—Resolution—That, in the opinion of this House, recognizing that Ontario's beaches are a precious natural and recreational resource, and that the recreational viability of many of these beaches are placed at risk each summer by stormwater runoff after significant rainfalls, the Government of Ontario should continue to place a high priority on the study and implementation of stormwater research and management, and should rigorously foster the spirit of co-operation with Ontario's municipalities in the furtherance of the goal of clean beaches for the recreational enjoyment of Ontario's citizens. *June 13, 1990.*

SPECIAL DEBATES

MOTION OF NON-CONFIDENCE UNDER STANDING ORDER 42(a)

3. *Mr Laughren*—Notice—That this House condemns the Government of Ontario for its failure to recognize:
- that Northern Ontario has been a source of enormous wealth for the private sector;
 - that Northern Ontario has been a source of enormous revenues for the provincial government;
 - that the provincial government puts very little revenue back into the north;
 - that the roads in northern Ontario are in terrible shape;
 - that the Liberal government has not proceeded with serious 4-laning of highways in the north;
 - that the delivery of health care services in the north is still inferior;
 - that northern municipalities have particular problems of boom and bust while the Liberal government freezes unconditional grants;
 - that forestry jobs are threatened because of this government's failure to live up to its commitment to provide seedlings and because of the continuing practice of clear-cutting;
 - that almost no attempts have been made to diversify the economy to create jobs nor to work with the private sector and create meaningful jobs when serious layoffs occur;
 - that the Ontario government continues to treat northern Ontario citizens like second class citizens;

therefore this government has lost the confidence of this House. *June 13, 1990.*

QUESTIONS

(Questions are to appear on the day after they are tabled and on every subsequent day in the week they are tabled and then subsequently only on each Monday until an Answer (other than an Interim Answer) is tabled. A question tabled on a Thursday will appear on each day of the following week.)

466. *Mr Philip (Etobicoke-Rexdale)*—Enquiry of the Ministry—Would the Minister of Education inform the House why the capital expenditure money was not approved for the “northern” secondary school even though it was listed as the first priority by the Peel Separate School Board. Also would the Minister indicate why other schools were approved instead of adhering to the ranking of priorities by the board and explain what the purpose is of requesting schools to submit their capital expenditure priorities if the ministry is going to overrule and second guess the boards. *June 14, 1990.*

SCHEDULE

CONSTITUTION AMENDMENT

PART I

Constitution Act, 1867

1. Section 25 of the *Constitution Act, 1867*, as enacted by section 2 of the *Constitution Amendment, 1987*, is amended by adding thereto, immediately after the word "province" wherever it occurs therein, the words "or territory".

2.(1) Subsection 101C(1) of the said Act, as enacted by section 6 of the *Constitution Amendment, 1987*, is amended by adding thereto, immediately after the word "province" wherever it occurs therein, the words "or territory".

(2) Subsection 101C(4) of the said Act, as enacted by section 6 of the *Constitution Amendment, 1987*, is amended by adding thereto, immediately after the word "province" where it occurs therein, the words ", or territory,".

3. Section 148 of the said Act, as enacted by section 8 of the *Constitution Amendment, 1987*, is renumbered as subsection 148(1) and is further amended by adding thereto the following subsection:

Partici-
pation of
Territories

"(2) The Prime Minister of Canada shall invite elected representatives of the governments of the Yukon Territory and the Northwest Territories to participate in the discussions on any item on the agenda of a conference convened under subsection (1) that, in the opinion of the Prime Minister, directly affects the Yukon Territory and the Northwest Territories."

Constitution Act, 1982

4. Section 43 of the *Constitution Act, 1982* is renumbered as subsection 43(1) and is further amended by adding thereto the following subsection:

Amendment
to New
Brunswick
Act

"(2) An amendment to the Act of the Legislature of New Brunswick entitled *An Act Recognizing the Equality of the Two Official Linguistic Communities in New Brunswick*, chapter O-1.1 of the Acts of New Brunswick, 1981, may be made by proclamation issued by the Governor General under the Great Seal of Canada only where so authorized by resolutions of the Senate and House of Commons and of the Legislative Assembly of New Brunswick."

5.(1) Subsection 50(2) of the said Act, as enacted by section 13 of the *Constitution Amendment, 1987*, is amended by adding thereto, immediately after paragraph (a) thereof, the following paragraph:

"(a.1) matters of interest to English-speaking and French-speaking linguistic minorities;"

(2) Section 50 of the said Act, as enacted by section 13 of the *Constitution Amendment, 1987*, is further amended by adding thereto the

following subsection:

Participation of the territories

"(3) The Prime Minister of Canada shall invite elected representatives of the governments of the Yukon Territory and the Northwest Territories to participate in the discussions on any item on the agenda of a conference convened under subsection (1) that, in the opinion of the Prime Minister, directly affects the Yukon Territory and the Northwest Territories."

6. The said Act is further amended by adding thereto, immediately after section 50 thereof, as enacted by section 13 of the *Constitution Amendment, 1987*, the following section:

Constitutional conference

"51.(1) A constitutional conference composed of the Prime Minister of Canada and the first ministers of the provinces shall be convened by the Prime Minister of Canada within one year after this Part comes into force and at least once in every third calendar year after the first such conference is convened.

Participation of aboriginal peoples

(2) Each conference convened under subsection (1) shall have included in its agenda matters of interest to the aboriginal peoples of Canada, and the Prime Minister of Canada shall invite representatives of those peoples to participate in the discussions on those matters.

Participation of territories

(3) The Prime Minister of Canada shall invite elected representatives of the governments of the Yukon Territory and the Northwest Territories to participate in the discussions on any item on the agenda of a conference convened under subsection (1) that, in the opinion of the Prime Minister, directly affects the Yukon Territory and the Northwest Territories.

Non-derogation (4) Nothing in this section shall be construed so as to derogate from section 35."

Constitution Amendment, 1987

7. Section 16 of the *Constitution Amendment, 1987* is amended by adding thereto, immediately after the reference to section 27 where it occurs therein, the following: "or 28".

PART II

Constitution Act, 1867

8. All that portion of section 22 of the *Constitution Act, 1867* following item 4 and preceding the last paragraph thereof is repealed and the following substituted therefor:

"which Four Divisions shall, subject to the provisions of this Act, be represented in the Senate as follows: Ontario by eighteen Senators; Quebec by twenty-four Senators; the Maritime Provinces and Prince Edward Island by twenty Senators, eight thereof representing Nova Scotia, eight thereof representing New Brunswick, and four thereof representing Prince Edward Island; the Western Provinces by thirty-two Senators, eight thereof representing Manitoba, eight thereof representing British Columbia, eight thereof representing Saskatchewan, and eight thereof representing Alberta; Newfoundland shall be entitled to be represented in the Senate by eight members; the Yukon Territory and the Northwest Territories shall be entitled to be represented in the Senate by one member each."

9. Section 27 of the said Act is repealed and the following substituted therefor:

Reduction
of Senate
to normal
number

"27. In case of such addition being at any time made, the Governor General shall not summon any person to the Senate, except on a further like direction by the Queen on the like recommendation, to represent one of the Four Divisions until such Division is represented by the number of Senators provided for by section 22 and no more."

Transi-
tional
provision

10. Notwithstanding section 22 of the *Constitution Act, 1867*, any province that is represented in the Senate on the coming into force of this Part by more Senators than are provided for under that section may continue to be so represented, but no additional persons may be summoned to the Senate to represent that province until the number of Senators representing that province falls below the number set out in section 22, and thereafter, subject to section 26, the number representing that province shall not exceed that number.

11.(1) This Part shall not come into force if an amendment in relation to the Senate that is consistent with the objectives set out in the *1990 Constitutional Agreement* signed at Ottawa on June 9, 1990 is made before July 1, 1995.

(2) If an amendment described in subsection (1) is not made before July 1, 1995, this Part shall come into force on that date.

Modification constitutionnelle de 1987

7. L'article 16 de la *Modification constitutionnelle de 1987* est modifié par insertion, après «27», de «ou 28».

PARTIE II

Loi constitutionnelle de 1867

8. Le passage de l'article 22 de la *Loi constitutionnelle de 1867* qui suit le point 4 et précède le dernier paragraphe est abrogé et remplacé par ce qui suit:

«les quatre divisions doivent (subordonnement aux révisions de la présente loi) être représentées dans le Sénat, ainsi qu'il suit : -- Ontario par dix-huit sénateurs; Québec par vingt-quatre sénateurs; les Provinces maritimes et l'Île-du-Prince-Édouard par vingt sénateurs, dont huit représentent la Nouvelle-Écosse, huit le Nouveau-Brunswick et quatre l'Île-du-Prince-Édouard; les provinces de l'Ouest par trente-deux sénateurs, dont huit représentent le Manitoba, huit la Colombie-Britannique, huit la Saskatchewan et huit l'Alberta; la province de Terre-Neuve aura droit d'être représentée au Sénat par huit sénateurs; le territoire du Yukon et les Territoires du Nord-Ouest ont le droit d'être représentés au Sénat par un sénateur chacun.»

9. L'article 27 de la même loi est abrogé et remplacé par ce qui suit :

Réduction
du Sénat
au nombre
régulier

«27. Dans le cas où le nombre des sénateurs serait ainsi en aucun temps augmenté, le gouverneur général ne mandera aucune personne au Sénat, sauf sur pareil ordre de la Reine donné à la suite de la même recommandation, tant que la représentation de chacune des quatre divisions du Canada ne sera pas revenue au nombre fixe visé à l'article 22.»

Disposi-
tion
transi-
toire

10. Par dérogation à l'article 22 de la *Loi constitutionnelle de 1867*, peut être maintenue la représentation au Sénat de toute province dont le nombre de sénateurs excède, à l'entrée en vigueur de la présente partie, celui prévu à cet article; toutefois, il ne peut être nommé de sénateurs pour représenter cette province tant que le nombre de ceux-ci n'est pas inférieur à celui prévu à l'article 22 de cette loi et, par la suite, sous réserve de l'article 26 de cette loi, le nombre de sénateurs pour cette province ne peut excéder cette limite.

11.(1) La présente partie n'entre pas en vigueur si une modification portant sur le Sénat, conforme aux paramètres énoncés dans l'*Entente constitutionnelle de 1990* signée à Ottawa le 9 juin 1990, est faite avant le 1^{er} juillet 1995.

(2) À défaut d'une modification visée au paragraphe (1), la présente partie entre en vigueur le 1^{er} juillet 1995.

PRIVATE MEMBERS' MOTIONS

2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
- 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*
23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*

24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple “E” Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*
37. *Mr McGuigan*—Resolution—That in the opinion of this House, the Standing Committee on Social Development should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario and in particular, in conjunction with vaccine-injuries in Ontario, the Committee should consider and recommend:
- an effective means of information about the benefits and risks of immunization and about known contra-indications;
 - an effective method of parental instruction about how to deal with reactions, should they occur;
 - an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations;
 - a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory. *December 20, 1989.*
39. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing the need to protect and enhance the environment; the Government of Ontario should not offer any grants or loans for private sector projects not utilizing the best available environmental technology, and further, grant and loan criteria—specifically the Premier’s Technology fund—should be amended

by the Government of Ontario to give priority to projects developing environmental technology. *March 19, 1990.*

40. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that everyone has the right to life, liberty and security of the person, and the right not to be deprived thereof except in accordance with the principles of fundamental justice; the Government of Ontario should petition the Government of Canada to add the fundamental right of enjoyment of property to the Canadian Charter of Rights. *March 19, 1990.*
41. *Mrs Marland*—Resolution—That, in the opinion of this House, recognizing that the Province of Ontario has imposed a special tax of \$5 (plus a 40-cent retail sales tax) on every new tire sold in Ontario, and recognizing that used tires take up much needed space in existing landfill sites, the government should establish used tire depots in various regions of Ontario where used tires would be collected and shredded for recycling, and further that the cost of developing and operating these sites be paid for from the revenues collected from the above-noted taxes. *March 19, 1990.*
42. *Mr Mackenzie*—Resolution—That, in the opinion of this House, recognizing the current Regulations covering hygiene on construction sites are outdated and in need of amendment; that requirements for the provision of toilet and washroom facilities should be fully reflected in the Regulations of the Occupational Health and Safety Act (Sections 89/90); and that the requirements should be both practical and workable, result in the improvement of jobsite working conditions, and hence improve productivity on construction jobsites in the province. 1. The owner/constructor/project manager shall provide toilet and washing facilities on all construction sites in accordance with the following: a) where there are 15 or more workers on a project for a minimum period of one month the facilities shall include one flush (non-chemical) toilet and one urinal and one basin; and b) for each additional 30 workers or part thereof, an additional flush toilet, urinal and wash basin shall be added to facilities. 2. The costs borne by the owner/constructor/project manager in meeting the responsibilities of sections 89 & 90 cannot be transferred to other subcontractors/forces on the project. 3. The owner/constructor/project manager shall have the option of providing the necessary facilities via access to facilities existing or adjacent to the worksite; via temporary fixed facilities constructed on the site; or via mobile units; conditional on site services being available. 4. On high-rise projects, the necessary facilities shall be made available on every fourth floor. 5. The toilet facilities provided shall be equipped as follows: a) within easy access of work sites, b) built so that the occupant is shielded from view, and protected from weather and falling objects. c) provided with natural or artificial lighting. d) provided with sufficient toilet paper and disinfectant. e) kept in a clean and sanitary condition. f) supplied with toilet seats and covers. g) heated to a minimum of 18 degrees C. h) suitably ventilated. 6. Basins provided shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) hand towels. 90 1.a). Where WHMIS-class products are present on the jobsite, washing facilities meeting the requirements of the applicable material safety data sheets shall be provided. b). If showers (with the exception of safety showers) are required, they shall have as a minimum standard a) hot and cold running

water. b) soap or hand cleaner. c) paper towels or individual hand towels. *March 21, 1990.*

45. *Mr Rae (York South)*—Resolution—That, in the opinion of this House, recognizing that unequal opportunity for employment and promotion exists in the province of Ontario for women, members of visible minority groups, native persons and people with disabilities, and recognizing that voluntary efforts to increase the representation of employable persons with such characteristics by employers have profoundly failed in both the private and public sectors of employment in Ontario, and recognizing that the only remedy to such an inequitable situation in Ontario is the introduction of a legislated mandatory employment equity program with enforceable goals and timetables, in both the private and public sectors, and with an emphasis on removing existing barriers to employment and promotion through the provision by government of such important and necessary services as job training, and child care, all parties in Ontario should join together to secure the enactment in the current legislative session of such employment equity legislation for Ontario. *March 22, 1990.*
50. *Mr Cooke (Windsor-Riverside)*—Resolution—That, in the opinion of this House, recognizing that Canada Post, with the sanction of the federal government of Canada, has undertaken to close 5,221 rural post offices by 1996 and has already closed 175 post offices in spite of massive opposition from individual Canadians and organizations such as the Canadian Municipalities' Association and several provincial governments, and recognizing that closing or privatization of the rural post office undermines over eight decades of uninterrupted service to thousands of Ontarians who live in rural areas, the Government of Ontario should express its dissatisfaction to the federal government of Canada and Canada Post for its present action and strongly urges Canada Post to cease this demise of a system that has well served its rural clientele; and, further that Canada Post return to providing and encouraging the already proven system of existing post offices that will continue to link rural customers with a reliable and cost effective communications system. *April 19, 1990.*
54. *Ms Poole*—Resolution—That, in the opinion of this House, since the Canadian Council of Ministers of the Environment has recognized that waste management is an urgent and pressing national problem, and that per capita consumption of packaging in Canada amounts to an estimated one (1) tonne of packaging per family per year, and that eighty (80) percent of the packaging used in Canada is managed through disposal, thereby squandering natural resources, increasing financial expenditures to deal with materials not fully utilized, consuming valuable land for disposal purposes, creating various pollutants, threatening wildlife, causing aesthetic unsightliness, and leaving a legacy of environmental degradation to our children, and since the National Packaging Protocol endorsed by the Canadian Council of Ministers of the Environment in Vancouver on March 20, 1990, proposed a timetable for packaging reduction, but no framework for immediate regulation, and that opportunities exist for Ontario to take an international leadership role in regulating the reduction, re-use and recycling of packaging materials, and that the environmental protection industry offers unique opportunities to create new employment in Ontario, the Govern-

ment of Ontario, in the event that the federal government fails to introduce such legislation on a national basis by the fall of 1990, should develop and introduce legislation requiring the reduction, re-use and recycling of packaging materials, in conjunction with other provincial jurisdictions that indicate a willingness to proceed on common terms. *June 13, 1990.*

55. *Mrs O'Neill (Ottawa-Rideau)*—Resolution—That, in the opinion of this House, recognizing that Ontario's beaches are a precious natural and recreational resource, and that the recreational viability of many of these beaches are placed at risk each summer by stormwater runoff after significant rainfalls, the Government of Ontario should continue to place a high priority on the study and implementation of stormwater research and management, and should rigorously foster the spirit of co-operation with Ontario's municipalities in the furtherance of the goal of clean beaches for the recreational enjoyment of Ontario's citizens. *June 13, 1990.*

SPECIAL DEBATES

MOTION OF NON-CONFIDENCE UNDER STANDING ORDER 42(a)

3. *Mr Laughren*—Notice—That this House condemns the Government of Ontario for its failure to recognize:

- that Northern Ontario has been a source of enormous wealth for the private sector;
- that Northern Ontario has been a source of enormous revenues for the provincial government;
- that the provincial government puts very little revenue back into the north;
- that the roads in northern Ontario are in terrible shape;
- that the Liberal government has not proceeded with serious 4-laning of highways in the north;
- that the delivery of health care services in the north is still inferior;
- that northern municipalities have particular problems of boom and bust while the Liberal government freezes unconditional grants;
- that forestry jobs are threatened because of this government's failure to live up to its commitment to provide seedlings and because of the continuing practice of clear-cutting;
- that almost no attempts have been made to diversify the economy to create jobs nor to work with the private sector and create meaningful jobs when serious layoffs occur;
- that the Ontario government continues to treat northern Ontario citizens like second class citizens;

therefore this government has lost the confidence of this House. *June 13, 1990.*

QUESTIONS

(Questions are to appear on the day after they are tabled and on every subsequent day in the week they are tabled and then subsequently only on each Monday until an Answer (other than an Interim Answer) is tabled. A question tabled on a Thursday will appear on each day of the following week.)

466. *Mr Philip (Etobicoke-Rexdale)*—Enquiry of the Ministry—Would the Minister of Education inform the House why the capital expenditure money was not approved for the “northern” secondary school even though it was listed as the first priority by the Peel Separate School Board. Also would the Minister indicate why other schools were approved instead of adhering to the ranking of priorities by the board and explain what the purpose is of requesting schools to submit their capital expenditure priorities if the ministry is going to overrule and second guess the boards. *June 14, 1990.*

NOTICES

GOVERNMENT MOTIONS

31. *Budget motion debated April 24, 25, 26 and 30, 1990.*
32. *Mr Ward*—Motion pursuant to Standing Order 6(b)—That, notwithstanding Standing Order 9, the House shall continue to meet from 6.00 p.m. to 12.00 midnight on June 18, 19, 20, 25, 26, 27 and 28, 1990, at which time the Speaker shall adjourn the House without motion until the next Sessional day. *June 14, 1990.*
33. *Mr Nixon (Brant-Haldimand)*—Resolution—That the Treasurer of Ontario be authorized to pay the salaries of the civil servants and other necessary payments pending the voting of supply for the period commencing July 1, 1990, and ending October 31, 1990, such payments to be charged to the proper appropriation following the voting of supply. *June 18, 1990.*
34. *Debated June 20, 1990.*

PRIVATE MEMBERS' MOTIONS

2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
- 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*

10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*
23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*
24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple “E” Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*
37. *Mr McGuigan*—Resolution—That in the opinion of this House, the Standing Committee on Social Development should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario and in particular, in conjunction with vaccine-injuries in Ontario, the Committee should consider and recommend:

- an effective means of information about the benefits and risks of immunization and about known contra-indications;
- an effective method of parental instruction about how to deal with reactions, should they occur;
- an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations;
- a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory. *December 20, 1989.*

39. *Mr Harris—Resolution—That, in the opinion of this House, recognizing the need to protect and enhance the environment; the Government of Ontario should not offer any grants or loans for private sector projects not utilizing the best available environmental technology, and further, grant and loan criteria—specifically the Premier’s Technology fund—should be amended by the Government of Ontario to give priority to projects developing environmental technology. March 19, 1990.*
40. *Mr Harris—Resolution—That, in the opinion of this House, recognizing that everyone has the right to life, liberty and security of the person, and the right not to be deprived thereof except in accordance with the principles of fundamental justice; the Government of Ontario should petition the Government of Canada to add the fundamental right of enjoyment of property to the Canadian Charter of Rights. March 19, 1990.*
41. *Mrs Marland—Resolution—That, in the opinion of this House, recognizing that the Province of Ontario has imposed a special tax of \$5 (plus a 40-cent retail sales tax) on every new tire sold in Ontario, and recognizing that used tires take up much needed space in existing landfill sites, the government should establish used tire depots in various regions of Ontario where used tires would be collected and shredded for recycling, and further that the cost of developing and operating these sites be paid for from the revenues collected from the above-noted taxes. March 19, 1990.*
42. *Mr Mackenzie—Resolution—That, in the opinion of this House, recognizing the current Regulations covering hygiene on construction sites are outdated and in need of amendment; that requirements for the provision of toilet and washroom facilities should be fully reflected in the Regulations of the Occupational Health and Safety Act (Sections 89/90); and that the requirements should be both practical and workable, result in the improvement of jobsite working conditions, and hence improve productivity on construction jobsites in the province. 1. The owner/constructor/project manager shall provide toilet and washing facilities on all construction sites in accordance with the following: a) where there are 15 or more workers on a project for a minimum period of one month the facilities shall include one flush (non-chemical) toilet and one urinal and one basin; and b) for each additional 30 workers or part thereof, an additional flush toilet, urinal and wash basin shall be added to facilities. 2. The costs borne by the owner/*

constructor/project manager in meeting the responsibilities of sections 89 & 90 cannot be transferred to other subcontractors/forces on the project. 3. The owner/constructor/project manager shall have the option of providing the necessary facilities via access to facilities existing or adjacent to the worksite; via temporary fixed facilities constructed on the site; or via mobile units; conditional on site services being available. 4. On high-rise projects, the necessary facilities shall be made available on every fourth floor. 5. The toilet facilities provided shall be equipped as follows: a) within easy access of work sites, b) built so that the occupant is shielded from view, and protected from weather and falling objects. c) provided with natural or artificial lighting. d) provided with sufficient toilet paper and disinfectant. e) kept in a clean and sanitary condition. f) supplied with toilet seats and covers. g) heated to a minimum of 18 degrees C. h) suitably ventilated. 6. Basins provided shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) hand towels. 90 1.a). Where WHMIS-class products are present on the jobsite, washing facilities meeting the requirements of the applicable material safety data sheets shall be provided. b). If showers (with the exception of safety showers) are required, they shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) paper towels or individual hand towels. *March 21, 1990.*

45. *Mr Rae (York South)*—Resolution—That, in the opinion of this House, recognizing that unequal opportunity for employment and promotion exists in the province of Ontario for women, members of visible minority groups, native persons and people with disabilities, and recognizing that voluntary efforts to increase the representation of employable persons with such characteristics by employers have profoundly failed in both the private and public sectors of employment in Ontario, and recognizing that the only remedy to such an inequitable situation in Ontario is the introduction of a legislated mandatory employment equity program with enforceable goals and timetables, in both the private and public sectors, and with an emphasis on removing existing barriers to employment and promotion through the provision by government of such important and necessary services as job training, and child care, all parties in Ontario should join together to secure the enactment in the current legislative session of such employment equity legislation for Ontario. *March 22, 1990.*

50. *Mr Cooke (Windsor-Riverside)*—Resolution—That, in the opinion of this House, recognizing that Canada Post, with the sanction of the federal government of Canada, has undertaken to close 5,221 rural post offices by 1996 and has already closed 175 post offices in spite of massive opposition from individual Canadians and organizations such as the Canadian Municipalities' Association and several provincial governments, and recognizing that closing or privatization of the rural post office undermines over eight decades of uninterrupted service to thousands of Ontarians who live in rural areas, the Government of Ontario should express its dissatisfaction to the federal government of Canada and Canada Post for its present action and strongly urges Canada Post to cease this demise of a system that has well served its rural clientele; and, further that Canada Post return to providing and encouraging the already proven system of existing post offices

that will continue to link rural customers with a reliable and cost effective communications system. *April 19, 1990.*

54. *Ms Poole*—Resolution—That, in the opinion of this House, since the Canadian Council of Ministers of the Environment has recognized that waste management is an urgent and pressing national problem, and that per capita consumption of packaging in Canada amounts to an estimated one (1) tonne of packaging per family per year, and that eighty (80) percent of the packaging used in Canada is managed through disposal, thereby squandering natural resources, increasing financial expenditures to deal with materials not fully utilized, consuming valuable land for disposal purposes, creating various pollutants, threatening wildlife, causing aesthetic unsightliness, and leaving a legacy of environmental degradation to our children, and since the National Packaging Protocol endorsed by the Canadian Council of Ministers of the Environment in Vancouver on March 20, 1990, proposed a timetable for packaging reduction, but no framework for immediate regulation, and that opportunities exist for Ontario to take an international leadership role in regulating the reduction, re-use and recycling of packaging materials, and that the environmental protection industry offers unique opportunities to create new employment in Ontario, the Government of Ontario, in the event that the federal government fails to introduce such legislation on a national basis by the fall of 1990, should develop and introduce legislation requiring the reduction, re-use and recycling of packaging materials, in conjunction with other provincial jurisdictions that indicate a willingness to proceed on common terms. *June 13, 1990.*
 55. *Mrs O'Neill (Ottawa-Rideau)*—Resolution—That, in the opinion of this House, recognizing that Ontario's beaches are a precious natural and recreational resource, and that the recreational viability of many of these beaches are placed at risk each summer by stormwater runoff after significant rainfalls, the Government of Ontario should continue to place a high priority on the study and implementation of stormwater research and management, and should rigorously foster the spirit of co-operation with Ontario's municipalities in the furtherance of the goal of clean beaches for the recreational enjoyment of Ontario's citizens. *June 13, 1990.*

SPECIAL DEBATES

MOTIONS OF NON-CONFIDENCE UNDER STANDING ORDER 42(a)

3. *Mr Laughren*—Notice—That this House condemns the Government of Ontario for its failure to recognize:

- that Northern Ontario has been a source of enormous wealth for the private sector;
- that Northern Ontario has been a source of enormous revenues for the provincial government;
- that the provincial government puts very little revenue back into the north;
- that the roads in northern Ontario are in terrible shape;
- that the Liberal government has not proceeded with serious 4-laning of highways in the north;
- that the delivery of health care services in the north is still inferior;
- that northern municipalities have particular problems of boom and bust while the Liberal government freezes unconditional grants;
- that forestry jobs are threatened because of this government's failure to live up to its commitment to provide seedlings and because of the continuing practice of clear-cutting;
- that almost no attempts have been made to diversify the economy to create jobs nor to work with the private sector and create meaningful jobs when serious layoffs occur;
- that the Ontario government continues to treat northern Ontario citizens like second class citizens;

therefore this government has lost the confidence of this House. *June 13, 1990.*

4. *Mr Harris*—Notice—That, in spite of 33 tax increases, increasing annual provincial tax revenues by over 130% in five years, and in spite of increasing total government spending over that same period from 25 billion dollars to over 44 billion dollars this government has failed to implement several of its significant election promises, specifically the creation of 4,000 new hospital beds, the creation of 102,000 affordable rental units, provide automobile drivers with lower insurance rates and, establish an environmental superfund to clean up toxic waste sites, therefore this House has lost confidence in the government of Ontario, not only for its inability to maintain its promises, but for its inability to develop a plan to halt the deterioration of

our health care system, transportation network, competitive tax position, and integrity of our government institutions. *June 25, 1990.*

462. *Mr Cousens*—Enquiry of the Ministry—Would the Minister of Energy explain the rationale for the Ontario Hydro French Language Services policy that indicates, "If you're bilingual and in a job that has been identified as requiring French proficiency, you will receive a weekly allowance which recognizes that additional skill that you bring to your job". Is this policy a standard procedure in other parts of your Ministry. If so, where and when was it implemented. When was this policy implemented in Ontario Hydro. What is the size of the weekly allowance. How is it calculated. *June 6, 1990.*
463. *Mr Cousens*—Enquiry of the Ministry—Would the Minister of Government Services indicate whether the policy as enunciated in the Ontario Hydro French Language Services Procedures is a policy being followed throughout the province of Ontario Civil Service. The policy as defined in the Ontario Hydro French Language Services bulletin says, "If you're bilingual and are in a job that has been identified as requiring French proficiency, you will receive a weekly allowance which will recognize the additional skill that you bring to your job". Where is this policy implemented elsewhere in the Province of Ontario. Is this a standard procedure in the Ontario Government Ministries. What is the size of the weekly allowance that is being offered. *June 6, 1990.*
464. *Mr Runciman*—Enquiry of the Ministry—Would the Minister of Transportation be prepared to reinstate, through GO Transit or other Crown corporations, various rail services recently cut by the Federal Government in order to preserve convenient transportation across Ontario and not only within the Greater Toronto Area. *June 7, 1990.*
465. *Mr Runciman*—Enquiry of the Ministry—Would the Minister of Health recommend that psycho-geriatric hospital beds be considered part of the Long Term Care Package and charged for in the same way as other

chronic-care facilities and that these beds only be used by those who are a danger to themselves or have acute psychiatric problems. *June 7, 1990.*

466. *Mr Philip (Etobicoke-Rexdale)*—Enquiry of the Ministry—Would the Minister of Education inform the House why the capital expenditure money was not approved for the “northern” secondary school even though it was listed as the first priority by the Peel Separate School Board. Also would the Minister indicate why other schools were approved instead of adhering to the ranking of priorities by the board and explain what the purpose is of requesting schools to submit their capital expenditure priorities if the ministry is going to overrule and second guess the boards. *June 14, 1990.*

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

(Precedence in accordance with the Standing Order 94(d).)

Ballot Item Number 58. *To be debated June 28, 1990.*

Ms Poole—Resolution—That, in the opinion of this House, since the Canadian Council of Ministers of the Environment has recognized that waste management is an urgent and pressing national problem, and that per capita consumption of packaging in Canada amounts to an estimated one (1) tonne of packaging per family per year, and that eighty (80) percent of the packaging used in Canada is managed through disposal, thereby squandering natural resources, increasing financial expenditures to deal with materials not fully utilized, consuming valuable land for disposal purposes, creating various pollutants, threatening wildlife, causing aesthetic unsightliness, and leaving a legacy of environmental degradation to our children, and since the National Packaging Protocol endorsed by the Canadian Council of Ministers of the Environment in Vancouver on March 20, 1990, proposed a timetable for packaging reduction, but no framework for immediate regulation, and that opportunities exist for Ontario to take an international leadership role in regulating the reduction, re-use and recycling of packaging materials, and that the environmental protection industry offers unique opportunities to create new employment in Ontario, the Government of Ontario, in the event that the federal government fails to introduce such legislation on a national basis by the fall of 1990, should develop and introduce legislation requiring the reduction, re-use and recycling of packaging materials, in conjunction with other provincial jurisdictions that indicate a willingness to proceed on common terms.

Ballot Item Number 59. *To be debated June 28, 1990.*

Mrs O'Neill (Ottawa-Rideau)—Resolution—That, in the opinion of this House, recognizing that Ontario's beaches are a precious natural and recreational resource, and that the recreational viability of many of these beaches are placed at risk each summer by stormwater runoff after significant rainfalls, the Government of Ontario should continue to place a high priority on the study and implementation of stormwater research and management, and should rigorously foster the spirit of co-operation with Ontario's municipalities in the furtherance of the goal of clean beaches for the recreational enjoyment of Ontario's citizens.

NOTICES

GOVERNMENT MOTIONS

31. *Budget motion debated April 24, 25, 26 and 30, 1990.*
32. *Withdrawn June 25, 1990.*
33. *Mr Nixon (Brant-Haldimand)—Resolution—That the Treasurer of Ontario be authorized to pay the salaries of the civil servants and other necessary payments pending the voting of supply for the period commencing July 1, 1990, and ending October 31, 1990, such payments to be charged to the proper appropriation following the voting of supply. June 18, 1990.*
35. *Mr Ward—Resolution—That, notwithstanding Standing Orders 6 and 9, the House shall continue to meet from 6.00 p.m. to 10.00 p.m. on Wednesday, June 27, 1990 to consider government business. June 26, 1990.*

PRIVATE MEMBERS' MOTIONS

2. *Ms Bryden—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. April 27, 1989.*
8. *Mr Brandt—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.*

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchised*

chise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*

23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*
24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple “E” Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*
37. *Mr McGuigan*—Resolution—That in the opinion of this House, the Standing Committee on Social Development should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario and in particular, in conjunction with vaccine-injuries in Ontario, the Committee should consider and recommend:

- an effective means of information about the benefits and risks of immunization and about known contra-indications;
- an effective method of parental instruction about how to deal with reactions, should they occur;
- an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations;
- a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory. *December 20, 1989.*

39. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing the need to protect and enhance the environment; the Government of Ontario should not offer any grants or loans for private sector projects not utilizing the best available environmental technology, and further, grant and loan criteria—specifically the Premier's Technology fund—should be amended by the Government of Ontario to give priority to projects developing environmental technology. *March 19, 1990.*
40. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that everyone has the right to life, liberty and security of the person, and the right not to be deprived thereof except in accordance with the principles of fundamental justice; the Government of Ontario should petition the Government of Canada to add the fundamental right of enjoyment of property to the Canadian Charter of Rights. *March 19, 1990.*
41. *Mrs Marland*—Resolution—That, in the opinion of this House, recognizing that the Province of Ontario has imposed a special tax of \$5 (plus a 40-cent retail sales tax) on every new tire sold in Ontario, and recognizing that used tires take up much needed space in existing landfill sites, the government should establish used tire depots in various regions of Ontario where used tires would be collected and shredded for recycling, and further that the cost of developing and operating these sites be paid for from the revenues collected from the above-noted taxes. *March 19, 1990.*
42. *Mr Mackenzie*—Resolution—That, in the opinion of this House, recognizing the current Regulations covering hygiene on construction sites are outdated and in need of amendment; that requirements for the provision of toilet and washroom facilities should be fully reflected in the Regulations of the Occupational Health and Safety Act (Sections 89/90); and that the requirements should be both practical and workable, result in the improvement of jobsite working conditions, and hence improve productivity on construction jobsites in the province. 1. The owner/constructor/project manager shall provide toilet and washing facilities on all construction sites in accordance with the following: a) where there are 15 or more workers on a project for a minimum period of one month the facilities shall include one flush (non-chemical) toilet and one urinal and one basin; and b) for each additional 30 workers or part thereof, an additional flush toilet, urinal and wash basin shall be added to facilities. 2. The costs borne by the owner/

constructor/project manager in meeting the responsibilities of sections 89 & 90 cannot be transferred to other subcontractors/forces on the project. 3. The owner/constructor/project manager shall have the option of providing the necessary facilities via access to facilities existing or adjacent to the worksite; via temporary fixed facilities constructed on the site; or via mobile units; conditional on site services being available. 4. On high-rise projects, the necessary facilities shall be made available on every fourth floor. 5. The toilet facilities provided shall be equipped as follows: a) within easy access of work sites, b) built so that the occupant is shielded from view, and protected from weather and falling objects. c) provided with natural or artificial lighting. d) provided with sufficient toilet paper and disinfectant. e) kept in a clean and sanitary condition. f) supplied with toilet seats and covers. g) heated to a minimum of 18 degrees C. h) suitably ventilated. 6. Basins provided shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) hand towels. 90 1.a). Where WHMIS-class products are present on the jobsite, washing facilities meeting the requirements of the applicable material safety data sheets shall be provided. b). If showers (with the exception of safety showers) are required, they shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) paper towels or individual hand towels. *March 21, 1990.*

45. *Mr Rae (York South)*—Resolution—That, in the opinion of this House, recognizing that unequal opportunity for employment and promotion exists in the province of Ontario for women, members of visible minority groups, native persons and people with disabilities, and recognizing that voluntary efforts to increase the representation of employable persons with such characteristics by employers have profoundly failed in both the private and public sectors of employment in Ontario, and recognizing that the only remedy to such an inequitable situation in Ontario is the introduction of a legislated mandatory employment equity program with enforceable goals and timetables, in both the private and public sectors, and with an emphasis on removing existing barriers to employment and promotion through the provision by government of such important and necessary services as job training, and child care, all parties in Ontario should join together to secure the enactment in the current legislative session of such employment equity legislation for Ontario. *March 22, 1990.*
50. *Mr Cooke (Windsor-Riverside)*—Resolution—That, in the opinion of this House, recognizing that Canada Post, with the sanction of the federal government of Canada, has undertaken to close 5,221 rural post offices by 1996 and has already closed 175 post offices in spite of massive opposition from individual Canadians and organizations such as the Canadian Municipalities' Association and several provincial governments, and recognizing that closing or privatization of the rural post office undermines over eight decades of uninterrupted service to thousands of Ontarians who live in rural areas, the Government of Ontario should express its dissatisfaction to the federal government of Canada and Canada Post for its present action and strongly urges Canada Post to cease this demise of a system that has well served its rural clientele; and, further that Canada Post return to providing and encouraging the already proven system of existing post offices

that will continue to link rural customers with a reliable and cost effective communications system. *April 19, 1990.*

54. *Ms Poole*—Resolution—That, in the opinion of this House, since the Canadian Council of Ministers of the Environment has recognized that waste management is an urgent and pressing national problem, and that per capita consumption of packaging in Canada amounts to an estimated one (1) tonne of packaging per family per year, and that eighty (80) percent of the packaging used in Canada is managed through disposal, thereby squandering natural resources, increasing financial expenditures to deal with materials not fully utilized, consuming valuable land for disposal purposes, creating various pollutants, threatening wildlife, causing aesthetic unsightliness, and leaving a legacy of environmental degradation to our children, and since the National Packaging Protocol endorsed by the Canadian Council of Ministers of the Environment in Vancouver on March 20, 1990, proposed a timetable for packaging reduction, but no framework for immediate regulation, and that opportunities exist for Ontario to take an international leadership role in regulating the reduction, re-use and recycling of packaging materials, and that the environmental protection industry offers unique opportunities to create new employment in Ontario, the Government of Ontario, in the event that the federal government fails to introduce such legislation on a national basis by the fall of 1990, should develop and introduce legislation requiring the reduction, re-use and recycling of packaging materials, in conjunction with other provincial jurisdictions that indicate a willingness to proceed on common terms. *June 13, 1990.*
 55. *Mrs O'Neill (Ottawa-Rideau)*—Resolution—That, in the opinion of this House, recognizing that Ontario's beaches are a precious natural and recreational resource, and that the recreational viability of many of these beaches are placed at risk each summer by stormwater runoff after significant rainfalls, the Government of Ontario should continue to place a high priority on the study and implementation of stormwater research and management, and should rigorously foster the spirit of co-operation with Ontario's municipalities in the furtherance of the goal of clean beaches for the recreational enjoyment of Ontario's citizens. *June 13, 1990.*

SPECIAL DEBATES

MOTIONS OF NON-CONFIDENCE UNDER STANDING ORDER 42(a)

3. *Mr Laughren*—Notice—That this House condemns the Government of Ontario for its failure to recognize:

- that Northern Ontario has been a source of enormous wealth for the private sector;
- that Northern Ontario has been a source of enormous revenues for the provincial government;
- that the provincial government puts very little revenue back into the north;
- that the roads in northern Ontario are in terrible shape;
- that the Liberal government has not proceeded with serious 4-laning of highways in the north;
- that the delivery of health care services in the north is still inferior;
- that northern municipalities have particular problems of boom and bust while the Liberal government freezes unconditional grants;
- that forestry jobs are threatened because of this government's failure to live up to its commitment to provide seedlings and because of the continuing practice of clear-cutting;
- that almost no attempts have been made to diversify the economy to create jobs nor to work with the private sector and create meaningful jobs when serious layoffs occur;
- that the Ontario government continues to treat northern Ontario citizens like second class citizens;

therefore this government has lost the confidence of this House. *June 13, 1990.*

4. *Mr Harris*—Notice—That, in spite of 33 tax increases, increasing annual provincial tax revenues by over 130% in five years, and in spite of increasing total government spending over that same period from 25 billion dollars to over 44 billion dollars this government has failed to implement several of its significant election promises, specifically the creation of 4,000 new hospital beds, the creation of 102,000 affordable rental units, provide automobile drivers with lower insurance rates and, establish an environmental superfund to clean up toxic waste sites, therefore this House has lost confidence in the government of Ontario, not only for its inability to maintain its promises, but for its inability to develop a plan to halt the deterioration of

our health care system, transportation network, competitive tax position, and integrity of our government institutions. *June 25, 1990.*

QUESTIONS

(Questions are to appear on the day after they are tabled and on every subsequent day in the week they are tabled and then subsequently only on each Monday until an Answer (other than an Interim Answer) is tabled. A question tabled on a Thursday will appear on each day of the following week.)

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

(Precedence in accordance with the Standing Order 94(d).)

Ballot Item Number 58. *To be debated June 28, 1990.*

Ms Poole—Resolution—That, in the opinion of this House, since the Canadian Council of Ministers of the Environment has recognized that waste management is an urgent and pressing national problem, and that per capita consumption of packaging in Canada amounts to an estimated one (1) tonne of packaging per family per year, and that eighty (80) percent of the packaging used in Canada is managed through disposal, thereby squandering natural resources, increasing financial expenditures to deal with materials not fully utilized, consuming valuable land for disposal purposes, creating various pollutants, threatening wildlife, causing aesthetic unsightliness, and leaving a legacy of environmental degradation to our children, and since the National Packaging Protocol endorsed by the Canadian Council of Ministers of the Environment in Vancouver on March 20, 1990, proposed a timetable for packaging reduction, but no framework for immediate regulation, and that opportunities exist for Ontario to take an international leadership role in regulating the reduction, re-use and recycling of packaging materials, and that the environmental protection industry offers unique opportunities to create new employment in Ontario, the Government of Ontario, in the event that the federal government fails to introduce such legislation on a national basis by the fall of 1990, should develop and introduce legislation requiring the reduction, re-use and recycling of packaging materials, in conjunction with other provincial jurisdictions that indicate a willingness to proceed on common terms.

Ballot Item Number 59. *To be debated June 28, 1990.*

Mrs O'Neill (Ottawa-Rideau)—Resolution—That, in the opinion of this House, recognizing that Ontario's beaches are a precious natural and recreational resource, and that the recreational viability of many of these beaches are placed at risk each summer by stormwater runoff after significant rainfalls, the Government of Ontario should continue to place a high priority on the study and implementation of stormwater research and management, and should rigorously foster the spirit of co-operation with Ontario's municipalities in the furtherance of the goal of clean beaches for the recreational enjoyment of Ontario's citizens.

NOTICES

GOVERNMENT MOTIONS

31. *Budget motion debated April 24, 25, 26 and 30, 1990.*
33. *Mr Nixon (Brant-Haldimand)—Resolution—That the Treasurer of Ontario be authorized to pay the salaries of the civil servants and other necessary payments pending the voting of supply for the period commencing July 1, 1990, and ending October 31, 1990, such payments to be charged to the proper appropriation following the voting of supply. June 18, 1990.*
35. *Debated June 26, 1990.*

PRIVATE MEMBERS' MOTIONS

2. *Ms Bryden—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. April 27, 1989.*
8. *Mr Brandt—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.*

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. May 15, 1989.
-
10. *Mr Harris—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be*

amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*

23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*

24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*

28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*

35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple "E" Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*

37. *Mr McGuigan*—Resolution—That in the opinion of this House, the Standing Committee on Social Development should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario and in particular, in conjunction with vaccine-injuries in Ontario, the Committee should consider and recommend:
 - an effective means of information about the benefits and risks of immunization and about known contra-indications;

 - an effective method of parental instruction about how to deal with reactions, should they occur;

- an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations;
- a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory. *December 20, 1989.*

39. *Mr Harris—Resolution—*That, in the opinion of this House, recognizing the need to protect and enhance the environment; the Government of Ontario should not offer any grants or loans for private sector projects not utilizing the best available environmental technology, and further, grant and loan criteria—specifically the Premier's Technology fund—should be amended by the Government of Ontario to give priority to projects developing environmental technology. *March 19, 1990.*
40. *Mr Harris—Resolution—*That, in the opinion of this House, recognizing that everyone has the right to life, liberty and security of the person, and the right not to be deprived thereof except in accordance with the principles of fundamental justice; the Government of Ontario should petition the Government of Canada to add the fundamental right of enjoyment of property to the Canadian Charter of Rights. *March 19, 1990.*
41. *Mrs Marland—Resolution—*That, in the opinion of this House, recognizing that the Province of Ontario has imposed a special tax of \$5 (plus a 40-cent retail sales tax) on every new tire sold in Ontario, and recognizing that used tires take up much needed space in existing landfill sites, the government should establish used tire depots in various regions of Ontario where used tires would be collected and shredded for recycling, and further that the cost of developing and operating these sites be paid for from the revenues collected from the above-noted taxes. *March 19, 1990.*
42. *Mr Mackenzie—Resolution—*That, in the opinion of this House, recognizing the current Regulations covering hygiene on construction sites are outdated and in need of amendment; that requirements for the provision of toilet and washroom facilities should be fully reflected in the Regulations of the Occupational Health and Safety Act (Sections 89/90); and that the requirements should be both practical and workable, result in the improvement of jobsite working conditions, and hence improve productivity on construction jobsites in the province. 1. The owner/constructor/project manager shall provide toilet and washing facilities on all construction sites in accordance with the following: a) where there are 15 or more workers on a project for a minimum period of one month the facilities shall include one flush (non-chemical) toilet and one urinal and one basin; and b) for each additional 30 workers or part thereof, an additional flush toilet, urinal and wash basin shall be added to facilities. 2. The costs borne by the owner/constructor/project manager in meeting the responsibilities of sections 89 & 90 cannot be transferred to other subcontractors/forces on the project. 3. The owner/constructor/project manager shall have the option of providing the necessary facilities via access to facilities existing or adjacent to the worksite; via temporary fixed facilities constructed on the site; or via mobile units; conditional on site services being available. 4. On high-rise

projects, the necessary facilities shall be made available on every fourth floor. 5. The toilet facilities provided shall be equipped as follows: a) within easy access of work sites, b) built so that the occupant is shielded from view, and protected from weather and falling objects. c) provided with natural or artificial lighting. d) provided with sufficient toilet paper and disinfectant. e) kept in a clean and sanitary condition. f) supplied with toilet seats and covers. g) heated to a minimum of 18 degrees C. h) suitably ventilated. 6. Basins provided shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) hand towels. 90 1.a). Where WHMIS-class products are present on the jobsite, washing facilities meeting the requirements of the applicable material safety data sheets shall be provided. b). If showers (with the exception of safety showers) are required, they shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) paper towels or individual hand towels. *March 21, 1990.*

45. *Mr Rae* (York South)—Resolution—That, in the opinion of this House, recognizing that unequal opportunity for employment and promotion exists in the province of Ontario for women, members of visible minority groups, native persons and people with disabilities, and recognizing that voluntary efforts to increase the representation of employable persons with such characteristics by employers have profoundly failed in both the private and public sectors of employment in Ontario, and recognizing that the only remedy to such an inequitable situation in Ontario is the introduction of a legislated mandatory employment equity program with enforceable goals and timetables, in both the private and public sectors, and with an emphasis on removing existing barriers to employment and promotion through the provision by government of such important and necessary services as job training, and child care, all parties in Ontario should join together to secure the enactment in the current legislative session of such employment equity legislation for Ontario. *March 22, 1990.*
50. *Mr Cooke* (Windsor-Riverside)—Resolution—That, in the opinion of this House, recognizing that Canada Post, with the sanction of the federal government of Canada, has undertaken to close 5,221 rural post offices by 1996 and has already closed 175 post offices in spite of massive opposition from individual Canadians and organizations such as the Canadian Municipalities' Association and several provincial governments, and recognizing that closing or privatization of the rural post office undermines over eight decades of uninterrupted service to thousands of Ontarians who live in rural areas, the Government of Ontario should express its dissatisfaction to the federal government of Canada and Canada Post for its present action and strongly urges Canada Post to cease this demise of a system that has well served its rural clientele; and, further that Canada Post return to providing and encouraging the already proven system of existing post offices that will continue to link rural customers with a reliable and cost effective communications system. *April 19, 1990.*
54. *Ms Poole*—Resolution—That, in the opinion of this House, since the Canadian Council of Ministers of the Environment has recognized that waste management is an urgent and pressing national problem, and that per capita consumption of packaging in Canada amounts to an estimated one (1)

tonne of packaging per family per year, and that eighty (80) percent of the packaging used in Canada is managed through disposal, thereby squandering natural resources, increasing financial expenditures to deal with materials not fully utilized, consuming valuable land for disposal purposes, creating various pollutants, threatening wildlife, causing aesthetic unsightliness, and leaving a legacy of environmental degradation to our children, and since the National Packaging Protocol endorsed by the Canadian Council of Ministers of the Environment in Vancouver on March 20, 1990, proposed a timetable for packaging reduction, but no framework for immediate regulation, and that opportunities exist for Ontario to take an international leadership role in regulating the reduction, re-use and recycling of packaging materials, and that the environmental protection industry offers unique opportunities to create new employment in Ontario, the Government of Ontario, in the event that the federal government fails to introduce such legislation on a national basis by the fall of 1990, should develop and introduce legislation requiring the reduction, re-use and recycling of packaging materials, in conjunction with other provincial jurisdictions that indicate a willingness to proceed on common terms. *June 13, 1990.*

55. *Mrs O'Neill (Ottawa-Rideau)*—Resolution—That, in the opinion of this House, recognizing that Ontario's beaches are a precious natural and recreational resource, and that the recreational viability of many of these beaches are placed at risk each summer by stormwater runoff after significant rainfalls, the Government of Ontario should continue to place a high priority on the study and implementation of stormwater research and management, and should rigorously foster the spirit of co-operation with Ontario's municipalities in the furtherance of the goal of clean beaches for the recreational enjoyment of Ontario's citizens. *June 13, 1990.*

SPECIAL DEBATES

MOTIONS OF NON-CONFIDENCE UNDER STANDING ORDER 42(a)

3. *Debated June 26, 1990.*
 4. *Mr Harris—Notice—That, in spite of 33 tax increases, increasing annual provincial tax revenues by over 130% in five years, and in spite of increasing total government spending over that same period from 25 billion dollars to over 44 billion dollars this government has failed to implement several of its significant election promises, specifically the creation of 4,000 new hospital beds, the creation of 102,000 affordable rental units, provide automobile drivers with lower insurance rates and, establish an environmental superfund to clean up toxic waste sites, therefore this House has lost confidence in the government of Ontario, not only for its inability to maintain its promises, but for its inability to develop a plan to halt the deterioration of our health care system, transportation network, competitive tax position, and integrity of our government institutions. GOVERNMENT MOTIONS

31. *Budget motion debated April 24, 25, 26 and 30, 1990.*

33. *Debated June 27, 1990.*

36. *Mr Ward*—Resolution—That the Order of the House of December 20, 1989 appointing the Select Committee on Constitutional and Intergovernmental Affairs, as amended by an Order of the House of March 20, 1990, be further amended by striking out all the words following “appointed” in the second line up to and including the word “Reform” in the third line and inserting “to consider and report on alternatives that would provide for more effective processes for future constitutional discussions” and by striking out all the words following “Canada” in the sixth line up to and including the words “October 15, 1990” in the tenth line. *June 28, 1990.*

37. *Mr Ward*—Resolution—That the following committees be authorized to meet during the Summer Adjournment in accordance with the schedule of meeting dates agreed to by the three Party Whips and tabled with the Clerk of the Assembly to examine and enquire into the following matters:—

Select Committee on Constitutional and Intergovernmental Affairs to consider matters relating to its terms of reference;

Select Committee on Education;

Select Committee on Energy to adjourn to Washington, D.C. and New York City, New York, to consider bilateral and international approaches to implementation of public policy regarding climate change;

Special Committee on the Parliamentary Precinct to meet from time to time at the call of the Co-Chairs of the Committee to consider matters related to the restoration of the Parliament Building;

Standing Committee on Finance and Economic Affairs be authorized to adjourn from place to place in North America to investigate comparative investment opportunities in Ontario and bordering American states;

Standing Committee on Government Agencies to adjourn to Washington, D.C. to meet with officials of the Administrative Conference of the United States;

Standing Committee on the Legislative Assembly to adjourn to Nashville, Tennessee to attend the annual meeting of the National Conference of State Legislators and to consider matters relating to freedom of information and protection of individual privacy;

Standing Committee on Regulations and Private Bills to consider matters relating to the regulations process;

Standing Committee on Resources Development to consider Bill 96, An Act to amend the Highway Traffic Act. *June 28, 1990.*

38. *Mr Ward*—Resolution—That with the agreement of the House Leader and Chief Whip of each of the recognized Parties, committees may meet during the Summer Adjournment at times other than those specified in the schedule tabled today with the Clerk of the Assembly to consider matters referred to them by the House or to consider matters designated pursuant to Standing Order 123. *June 28, 1990.*
39. *Mr Ward*—Resolution—That committees be authorized to release their reports during the Summer Adjournment by depositing a copy of any report with the Clerk of the Assembly, and upon the resumption of the meetings of the House, the Chairs of such committees shall bring any such reports before the House in accordance with the Standing Orders. *June 28, 1990.*

PRIVATE MEMBERS' MOTIONS

2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:
 - 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political pro-

cess; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*

23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*
24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple “E” Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*
37. *Mr McGuigan*—Resolution—That in the opinion of this House, the Standing Committee on Social Development should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario and in particular, in conjunction with vaccine-injuries in Ontario, the Committee should consider and recommend:

— an effective means of information about the benefits and risks of immunization and about known contra-indications;

- an effective method of parental instruction about how to deal with reactions, should they occur;
- an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations;
- a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory. *December 20, 1989.*

39. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing the need to protect and enhance the environment; the Government of Ontario should not offer any grants or loans for private sector projects not utilizing the best available environmental technology, and further, grant and loan criteria—specifically the Premier's Technology fund—should be amended by the Government of Ontario to give priority to projects developing environmental technology. *March 19, 1990.*
40. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that everyone has the right to life, liberty and security of the person, and the right not to be deprived thereof except in accordance with the principles of fundamental justice; the Government of Ontario should petition the Government of Canada to add the fundamental right of enjoyment of property to the Canadian Charter of Rights. *March 19, 1990.*
41. *Mrs Marland*—Resolution—That, in the opinion of this House, recognizing that the Province of Ontario has imposed a special tax of \$5 (plus a 40-cent retail sales tax) on every new tire sold in Ontario, and recognizing that used tires take up much needed space in existing landfill sites, the government should establish used tire depots in various regions of Ontario where used tires would be collected and shredded for recycling, and further that the cost of developing and operating these sites be paid for from the revenues collected from the above-noted taxes. *March 19, 1990.*
42. *Mr Mackenzie*—Resolution—That, in the opinion of this House, recognizing the current Regulations covering hygiene on construction sites are outdated and in need of amendment; that requirements for the provision of toilet and washroom facilities should be fully reflected in the Regulations of the Occupational Health and Safety Act (Sections 89/90); and that the requirements should be both practical and workable, result in the improvement of jobsite working conditions, and hence improve productivity on construction jobsites in the province. 1. The owner/constructor/project manager shall provide toilet and washing facilities on all construction sites in accordance with the following: a) where there are 15 or more workers on a project for a minimum period of one month the facilities shall include one flush (non-chemical) toilet and one urinal and one basin; and b) for each additional 30 workers or part thereof, an additional flush toilet, urinal and wash basin shall be added to facilities. 2. The costs borne by the owner/constructor/project manager in meeting the responsibilities of sections 89 & 90 cannot be transferred to other subcontractors/forces on the project. 3. The owner/constructor/project manager shall have the option of providing

the necessary facilities via access to facilities existing or adjacent to the worksite; via temporary fixed facilities constructed on the site; or via mobile units; conditional on site services being available. 4. On high-rise projects, the necessary facilities shall be made available on every fourth floor. 5. The toilet facilities provided shall be equipped as follows: a) within easy access of work sites, b) built so that the occupant is shielded from view, and protected from weather and falling objects, c) provided with natural or artificial lighting, d) provided with sufficient toilet paper and disinfectant, e) kept in a clean and sanitary condition, f) supplied with toilet seats and covers, g) heated to a minimum of 18 degrees C, h) suitably ventilated. 6. Basins provided shall have as a minimum standard a) hot and cold running water, b) soap or hand cleaner, c) hand towels. 90 1.a). Where WHMIS-class products are present on the jobsite, washing facilities meeting the requirements of the applicable material safety data sheets shall be provided. b). If showers (with the exception of safety showers) are required, they shall have as a minimum standard a) hot and cold running water, b) soap or hand cleaner, c) paper towels or individual hand towels. *March 21, 1990.*

45. *Mr Rae (York South)*—Resolution—That, in the opinion of this House, recognizing that unequal opportunity for employment and promotion exists in the province of Ontario for women, members of visible minority groups, native persons and people with disabilities, and recognizing that voluntary efforts to increase the representation of employable persons with such characteristics by employers have profoundly failed in both the private and public sectors of employment in Ontario, and recognizing that the only remedy to such an inequitable situation in Ontario is the introduction of a legislated mandatory employment equity program with enforceable goals and timetables, in both the private and public sectors, and with an emphasis on removing existing barriers to employment and promotion through the provision by government of such important and necessary services as job training, and child care, all parties in Ontario should join together to secure the enactment in the current legislative session of such employment equity legislation for Ontario. *March 22, 1990.*
50. *Mr Cooke (Windsor-Riverside)*—Resolution—That, in the opinion of this House, recognizing that Canada Post, with the sanction of the federal government of Canada, has undertaken to close 5,221 rural post offices by 1996 and has already closed 175 post offices in spite of massive opposition from individual Canadians and organizations such as the Canadian Municipalities' Association and several provincial governments, and recognizing that closing or privatization of the rural post office undermines over eight decades of uninterrupted service to thousands of Ontarians who live in rural areas, the Government of Ontario should express its dissatisfaction to the federal government of Canada and Canada Post for its present action and strongly urges Canada Post to cease this demise of a system that has well served its rural clientele; and, further that Canada Post return to providing and encouraging the already proven system of existing post offices that will continue to link rural customers with a reliable and cost effective communications system. *April 19, 1990.*

54. *Ms Poole*—Resolution—That, in the opinion of this House, since the Canadian Council of Ministers of the Environment has recognized that waste management is an urgent and pressing national problem, and that per capita consumption of packaging in Canada amounts to an estimated one (1) tonne of packaging per family per year, and that eighty (80) percent of the packaging used in Canada is managed through disposal, thereby squandering natural resources, increasing financial expenditures to deal with materials not fully utilized, consuming valuable land for disposal purposes, creating various pollutants, threatening wildlife, causing aesthetic unsightliness, and leaving a legacy of environmental degradation to our children, and since the National Packaging Protocol endorsed by the Canadian Council of Ministers of the Environment in Vancouver on March 20, 1990, proposed a timetable for packaging reduction, but no framework for immediate regulation, and that opportunities exist for Ontario to take an international leadership role in regulating the reduction, re-use and recycling of packaging materials, and that the environmental protection industry offers unique opportunities to create new employment in Ontario, the Government of Ontario, in the event that the federal government fails to introduce such legislation on a national basis by the fall of 1990, should develop and introduce legislation requiring the reduction, re-use and recycling of packaging materials, in conjunction with other provincial jurisdictions that indicate a willingness to proceed on common terms. *June 13, 1990.*
55. *Mrs O'Neill (Ottawa-Rideau)*—Resolution—That, in the opinion of this House, recognizing that Ontario's beaches are a precious natural and recreational resource, and that the recreational viability of many of these beaches are placed at risk each summer by stormwater runoff after significant rainfalls, the Government of Ontario should continue to place a high priority on the study and implementation of stormwater research and management, and should rigorously foster the spirit of co-operation with Ontario's municipalities in the furtherance of the goal of clean beaches for the recreational enjoyment of Ontario's citizens. *June 13, 1990.*

QUESTIONS

(Questions are to appear on the day after they are tabled and on every subsequent day in the week they are tabled and then subsequently only on each Monday until an Answer (other than an Interim Answer) is tabled. A question tabled on a Thursday will appear on each day of the following week.)

467. *Mr McCague*—Enquiry of the Ministry—Would the Chairman of Management Board provide the names of all immediate family members of Cabinet Ministers who are currently employed by the Government of Ontario, and include their place of employment, job title and salary range. *June 27, 1990.*
468. *Mr Jackson*—Enquiry of the Ministry—Would the Minister of Education table the following information regarding submissions made to the Ministry by Ontario school boards for 1990 capital allocations for the period 1994-95: (a) summaries by elementary panel and secondary panel of the amounts requested and the amounts allocated, broken down according to allocations for growth, upgrading, replacement, renovation, and site acquisition; (b) summaries of public and separate school boards of the amounts requested and the amounts allocated, broken down according to allocations for growth, upgrading, replacement, renovation, and site acquisition; and (c) aggregate summaries of (a) and (b), above. *June 28, 1990.*
469. *Mr Hampton*—Enquiry of the Ministry—Would the Minister of Health provide: (1) the number of biopsies performed for residents of the City of Thunder Bay (Metropolitan Census Area); (2) the city where biopsies occur; (3) the cost of transporting biopsy samples from Thunder Bay to city where performed; (4) the average length of time for the information to be returned to the requesting physician from the date originally sent. *June 28, 1990.*
470. *Mr Pollock*—Enquiry of the Ministry—Would the Minister of Natural Resources inform the House of the cost of the communications program undertaken by the Interministerial Steering Committee on Zebra Mussels to inform municipalities, anglers, boaters and other water users about the problems zebra mussels will cause and how best to deal with them. In particular, will the Minister provide the cost of preparing, printing and distributing the guidelines, fact sheets, posters, outdoor signs, brochures, public service announcements, displays, videos, slide shows, and ads in summer issues of cottaging, fishing and boating magazines listed in the Parliamentary Assistant's statement in the Legislature of June 18, 1990. *June 28, 1990.*
471. *Mr Pollock*—Enquiry of the Ministry—Would the Minister of Natural Resources provide a list of individuals and organizations to whom her zebra mussels communications package was mailed or otherwise distributed and how many packages were sent to each individual or organization. *June 28, 1990.*

472. *Mr Philip (Etobicoke-Rexdale)*—Enquiry of the Ministry—Would the Minister of Citizenship advise the House (1) how many complaints are waiting to be processed and adjudicated by the Ontario Human Rights Commission; (2) the average length of time to resolve a complaint from intake to final settlement; (3) how many complaints have been before the commission for more than 5 years, for more than 4 years, for more than 3 years, for more than 2 years; (4) provide reasons for the present backlog; (5) advise what actions are being taken to resolve the present backlog; (6) how many systematic investigations are presently being conducted on the chairs' personal initiative. *June 28, 1990.*

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

(Precedence in accordance with the Standing Order 94(d).)

Ballot Item Number 58.

Ms Poole—Resolution—That, in the opinion of this House, since the Canadian Council of Ministers of the Environment has recognized that waste management is an urgent and pressing national problem, and that per capita consumption of packaging in Canada amounts to an estimated one (1) tonne of packaging per family per year, and that eighty (80) percent of the packaging used in Canada is managed through disposal, thereby squandering natural resources, increasing financial expenditures to deal with materials not fully utilized, consuming valuable land for disposal purposes, creating various pollutants, threatening wildlife, causing aesthetic unsightliness, and leaving a legacy of environmental degradation to our children, and since the National Packaging Protocol endorsed by the Canadian Council of Ministers of the Environment in Vancouver on March 20, 1990, proposed a timetable for packaging reduction, but no framework for immediate regulation, and that opportunities exist for Ontario to take an international leadership role in regulating the reduction, re-use and recycling of packaging materials, and that the environmental protection industry offers unique opportunities to create new employment in Ontario, the Government of Ontario, in the event that the federal government fails to introduce such legislation on a national basis by the fall of 1990, should develop and introduce legislation requiring the reduction, re-use and recycling of packaging materials, in conjunction with other provincial jurisdictions that indicate a willingness to proceed on common terms.

Ballot Item Number 59.

Mrs O'Neill (Ottawa-Rideau)—Resolution—That, in the opinion of this House, recognizing that Ontario's beaches are a precious natural and recreational resource, and that the recreational viability of many of these beaches are placed at risk each summer by stormwater runoff after significant rainfalls, the Government of Ontario should continue to place a high priority on the study and implementation of stormwater research and management, and should rigorously foster the spirit of co-operation with Ontario's municipalities in the furtherance of the goal of clean beaches for the recreational enjoyment of Ontario's citizens.
